
SIGNS are important to any business firm. And the making of such signs of various types has developed into a huge industry.

The Campbell Press even invested in a few hundred hard-earned bucks last year for a new sign to replace the weather-beaten wooden letter job on our building.

But we have long thought it rather silly that Planning Commission approval has to be obtained for almost every new sign in town. It seems to us that much of the time-consuming work involving signs could be handled more efficiently at staff level, if certain basic standards were established.

-0-

IT IS OUR understanding that the long-awaited new sign ordinance for the city, now in the final drafting stages will take some of the load off of the commissioners.

We are for that.

It has long been our contention that it seems extremely incongruous to see a group of conscientious planning commissioners stewing for hours over the styling, height or location of a sign while the real major planning problems that beset the city must wait their turn in the wings.

-0-

HOURS were spent during a recent Planning Commission meeting discussing the relative merits of signs that had been submitted for approval.

Admittedly, even if there were definite basic standards established that will allow staff approval or disapproval of signs, there still will be cases when the planning commissioners or even the city councilmen will have to get into the act.

But these should be exceptional cases.

-0-

FOR EXAMPLE, the sign that was requested by Bill Harrison, local realtor, for "Betty's Inn" at the last commission meeting is a possible case in point.

Bill, owner of the commercial building on Winchester, which houses his real estate office, has leased a part of his building to a small restaurant.

They wanted the sign, "Betty's Inn", to extend from the building so that the home cooking operation could be more easily spotted.

But the Planning Commission ruled that the sign would have to be against the face of the building. In addition, all other signs on the building that were non-conforming would have to come down first.

That would include, we assume, that unique classic on the side: "REAL ESTATE/ INSURANCE/ HOME COOKING.

In reporting the commission's action, The Press noted that the request was for the sign to extend over the sidewalk. That was not

Camden + expressway + Sunnyoaks = headache

"Frustrating" is one of the mildest terms used by motorists and police alike to describe the traffic situation that has developed at the Camden Ave.-San Tomas Expressway-Sunnyoaks intersection at the peak hours.

(The other more colorful terms used cannot be reported in a family newspaper.)

Traffic problems that were already complicated by over-stacking on the Highway 17 Camden off-ramp have been compounded by the opening of two through (?) lanes of the San Tomas expressway.

The above photos give some indication of the stop-and-go problems that have arisen.

To exasperated motorists caught in the snarl at the complicated intersection there has been only one solution offered so far:

Avoid it, go home another way.

QUITE A MENU--The above pictured sign, offering a rather unusual combination of services on the Bill Harrison building at 2065 S. Winchester, must be removed before a new sign "Betty's Inn" can be placed on the face of the building, according to a Planning Commission ruling.

Harrison, a local realtor, also has offices in one portion of the building. Harrison's appeal from the commission ruling is on the City Council's agenda for Monday, Sept. 26.

City to award Budd Ave. job

Long-awaited improvement of Budd Ave. (from Winchester to Virginia) should move into high gear next Monday night at the City Council meeting when the contract for the street improvement project is slated to be awarded.

City Manager Bob Stephens and Bill Wren, city engineer, expect to open bids for the job this week and make their recommendation to the council next Monday.

The contract for traffic signals for Winchester-Budd intersection has already been awarded.

At next Monday's council meeting, the councilmen will be asked to "get tough" by Stephens with respect to the dilapidated red house at 1870 S. Bascom owned by Norman Husted. Stephens is recommending that an abatement resolution be passed that will allow the city to take legal action to force the owner to remove the condemned building.

Husted, according to Stephens, has failed to comply with the city's request to demolish the structure.

More than 100 days have elapsed, the city manager said, since the city made its request.

Before the council next Monday will be the appeal of Bill Harrison from a Planning Commission on ruling affecting a sign requested by Harrison at 2065 S. Winchester.

Part of the building

(Continued on page 2)

BIKE AUCTION--This Saturday, Sept. 24, at 10 a.m., behind the City Hall, the Campbell police, under the direction of Lt. Don Burr, will hold an auction to "unload" a six-month accumlation of 'unclaimed' merchandise. In addition to the 25 bikes that will be sold, other items such as radios, suitcases, auto stereos, and jewelry will go on the block. Mrs. Helen Dreher (left) and Miss Donna Maynard, police clerks, are pictured trying out two of the bikes that will be sold this Saturday.

City Council asks board

Will WV College stay in Campbell?

Future plans for the expansion of the West Valley Junior College District should include a change in status from "temporary" to "permanent" of the present Campbell campus, if the wholehearted cooperation of the Campbell City Council is to be expected.

That was the basic reasoning of the five councilmen who met with the governing board of the junior college district Monday night in the first joint meeting ever held by the two groups.

The council members also indicated that they looked with disfavor on the continued expansion of temporary facilities on the old Campbell Grammer School site, if the college eventually is to move out lock, stock and relocatable classrooms, leaving Campbell only with memories.

The temporary status could exist for many years, the councilmen pointed out. They felt this "permanent temporary" setup was unfair to the city.

Bob Brydon, president of the college board, presided at the joint meeting, and with his fellow members expressed sympathy for Campbell's position. They promised that shortly after Nov. 8 when the fate of the $21 million junior college district bond issue will be decided, they

City councilmen 'star' at C. of C. luncheon tomorrow

Although this is not election year for any one of the councilmen, all five members of the City Council are scheduled to put their joint records "on the line" at the Chamber of Commerce luncheon meeting tomorrow at Villa Felice.

The program for the luncheon, which will inaugarate the fall schedule for the C. of C., will be presented by the city officials and will be conducted in an unique manner.

Each councilman is scheduled to make a five-minute presentation of one particular phase of city activity. City Manager Bob Stephens will also be on hand to "backstop" the city fathers. A question and answer period is also scheduled at the conclusion of the joint councilmanic effort.

Chamber of Commerce officers, headed by Dick Hardy, president, and Jim Duffield, manager, are hoping that a full membership will be on hand to gain first hand information as to what problems are facing the city and what the city administration proposes to do about them.

According to the tentative "script" for this novel program, Mayor Ralph Doetsch will describe the proposed capital improvement program; Vice-Mayor Ed Rogers will handle the city's beautification; former Mayor Charles Rose will discuss streets; Councilman Bill Smeed will explain the industrial and commercial development plans and Councilman Homer Hyde, long-time planning commissioner before becoming a city councilman, will present the advance planning phase.

According to Stephens, the "director" of the "epic", if any one of the councilmen finds it impossible to be on hand, the others will "double-up" on the presentations.

According to Duffield, this cooperative effort on the part of the councilmen in presenting the first C. of C. program of the year emphasizes the "partners in progress" theme that has become a part of the city-C. of C. relationship.

Editorial

A real opportunity

The Campbell Chamber of Commerce launches its fall program with the first membership luncheon of the new season this Thursday, Sept. 22 at the Villa Felice.

It is fitting, in our opinion, that the program for the luncheon will be presented by the City of Campbell official family, for it has become increasingly apparent during the last year that the City and the C. of C. have established a "partnership" with a common objective, to make Campbell a better place in which to live and work.

The program on Thursday will be presented in a unique manner. We urge the C. of C. members to take advantage of the chance to gain first hand knowledge of their city, right at the source.

Although City Manager Bob Stephens can be classified as the "director" of the production, all five city councilmen have volunteered to present various phases of the city activities, including both problems and plans for the present and future.

The "script" calls for each councilman to make a five-minute presentation of one certain phase.

Then there, of course, will be a question period.

We think the idea is great.

It is tangible evidence of the sincerity of each of the councilmen, Ralph Doetsch, Charles Rose, Homer Hyde, Ed Rogers, and Bill Smeed.

They willingly are standing up and being counted.

It is a refreshing approach on any local government scene.

So we submit that Chamber of Commerce members should take advantage of this opportunity to get the "word" directly from those who make the decisions.

This luncheon meeting Thursday is just another example in our book of the giant strides the C. of C. has made during the past year under the guidance of Jim Duffield, manager, and its officers headed by Dick Hardy, president.

Under Duffield's management the Chamber has become the organization that we had all hoped it would be and had realized that it had to be, if our community was to progress.

There are many problems ahead. But the progress that has been made in recent months has been phenomenal.

To use that overworked expression, the Chamber's image has improved. It now has become a working partner in the community with a new force and impact.

But don't get us wrong.

The Chamber of Commerce in the years past has done an excellent job in and for the community. The directors and officers over the years have worked unceasingly to make the C. of C. recognized as the community coordinator and the C. of C. in the past has made an enviable record in many fields.

We are merely saying, however, that the seeds that were sown in the years past have sprouted into a vital organization and that much of the credit for this new energy, if you will, must go to the manager who has been at the helm in recent months, Jim Duffield.

There are examples we could cite where this new enthusiasm coupled with hard work has resulted in major achievements.

One recent example, is the first comprehensive "service directory" for the City of Campbell which will soon be in the hands of the residents of this city.

This directory, which took months to compile, is one of the most professional-type jobs of its kind we have ever seen produced. And we should know. We might add for the cynics, the commercial printing department of The Press did not do the job.

It is a project in which all C. of C. members, as well as residents, can take justifiable pride.

It lists pertinent facts about the city, including schools, city officials, etc. It also includes names of elective officers of county, state and national level.

All Chamber of Commerce members are listed and classified as to business or profession.

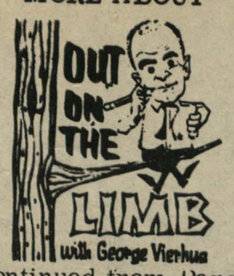
The handy coat-pocket size directory was published as a public service by the C. of C. in cooperation with the City Council and the Board of Supervisors.

We know it will prove invaluable as a reference book to the citizens of the community.

We again commend Chamber of Commerce Manager Duffield for this successful undertaking, just one of many that he has "cooking".

The future of this community seems to be in good hands.

MORE ABOUT



(Continued from Page 1)

quite accurate reporting.

-0-

THE PROPOSED sign would not extend over the public sidewalk because there happens to be a sort of 10-foot no-man's land between the building and the sidewalk, that was left there when Winchester was widened. Before widening it was used for parking but now it is too small for that.

In a letter to The Press this week, Bill conceded that the commission had a right to make the rulings, although naturally he still would like to have the sign extend from the building.

But Bill's main bone of contention is that, if he has to take down the so-called non-conforming signs on the building, shouldn't every other place in town that has similar signs be made to do likewise?

-0-

HE CLAIMS HE has pictures of 50 such violations in town.

We concede that more than staff action was warranted in this instance.

But for every one of these, there is a whole raft of routine jobs that could be settled at staff level without cluttering up the commission's lengthy agenda.

-0-

SPEAKING OF SIGNS, and it seems we were, as a dealer in words we chuckle every time we go by the Wells Fargo driveway on Campbell Ave.

One sign directs the customer to the "DRIVE-UP WINDOW" and just a few feet farther is the sign, "DRIVE-IN WINDOW".

You pay your money and take your choice.

-0-

TRAFFIC in Campbell seems to us a far more far-reaching problem than the type of signs that are erected on the business establishments.

But solving the sign problems is going to be far easier than trying to do something about the terrific traffic tangles.

The Press published a number of photographs last week of traffic pouring through the Hamilton-Bascom intersection at 8 a.m. on a Monday.

That intersection is rated as the busiest in the county. And we can believe it.

We saw it at its best ...or worst.

There were a lot of people late for work in San Jose that day. They had to be. There was no way to beat it, unless you walked across the tops of the cars.

-0-

TRAFFIC WAS backed up on Bascom past Campbell Ave. One party reported that she had to wait for eight signal changes at the Campbell-Bascom corner before she could make a left-turn onto Bascom from Campbell.

And, then, of course, we have with us the Highway 17-Camden off-ramp situation, compounded last week with the opening of two lanes of the San Tomas Expressway.

But surely there must be something more pleasant to talk about?

Letters to the Editor

KEEP IT CLOSED

Dear Editor:

In recent weeks there has been a move to reopen Rincon Avenue. Prior to the dead-ending of this street, Rincon Avenue was a raceway for many students and speed happy individuals.

Our kids could not walk out of the yard, and we could not back out of our driveways without being run down. The police did a good job of patrolling this area, but they could not be on twenty-four duty in one neighborhood.

Lately, since Rincon has been closed off, life has been very pleasant. I have discussed this with many of my neighbors, and we all feel that the closing of this street, Rincon, is the best thing that could have happened to our nice residential area.

As you know, there are many people that grumble no matter what. In this competitive world of ours, businesses have to give service in order to hold business. With main throughfares so close, Campbell Avenue is only one short block, I really don't feel that the closing of Rincon could be the cause of a great deal of business loss.

With apartments, businesses, and Expressways coming ever closer to the little family homeowner, please let us keep our new-found peace. I really don't feel that one or two businessmen and women should be able to dictate the re-opening of this area. It seems as if the homeowner has no rights whatever, and yet, it is our tax money which pays the mighty expenses of such a project, and this would be a costly project. Let's consider the "little guy" and his family for a change.

Sincerely,
M.E. Zawalski
121 S. Milton Ave.

BE FAIR TO ALL

Dear George:

In your news story on Wednesday, Sept. 14, may I point out a technical error on your part. You wrote, and I quote: "Harrison told the commission that it was necessary for the sign to extend over the sidewalk in order for the new business to be spotted."

George, may I point out, that the said applied-for-sign would extend out from the building 6-feet, BUT it still would be four feet short of the public sidewalk and still another 10-feet short of the curbline.

I am not asking for a retraction but I feel that clarification is needed.

I would like to make my position clear in some other points:

I, Bill Harrison, do not object to the city trying to upgrade the city's appearance; I do not object to the proposed new sign ordinance; I do not object to the rules, laws and restrictions of the city.

I do not object, PROVIDED that they apply equally to all.

One of the staff's recommendations in the matter of my sign application was that all signs, for which permits had not been issued, be removed.

I do not disagree with this ruling. But again, as a matter of principle, I ask: "If the rules, laws, restrictions or conditions are to apply to one, should they not apply equally to all?

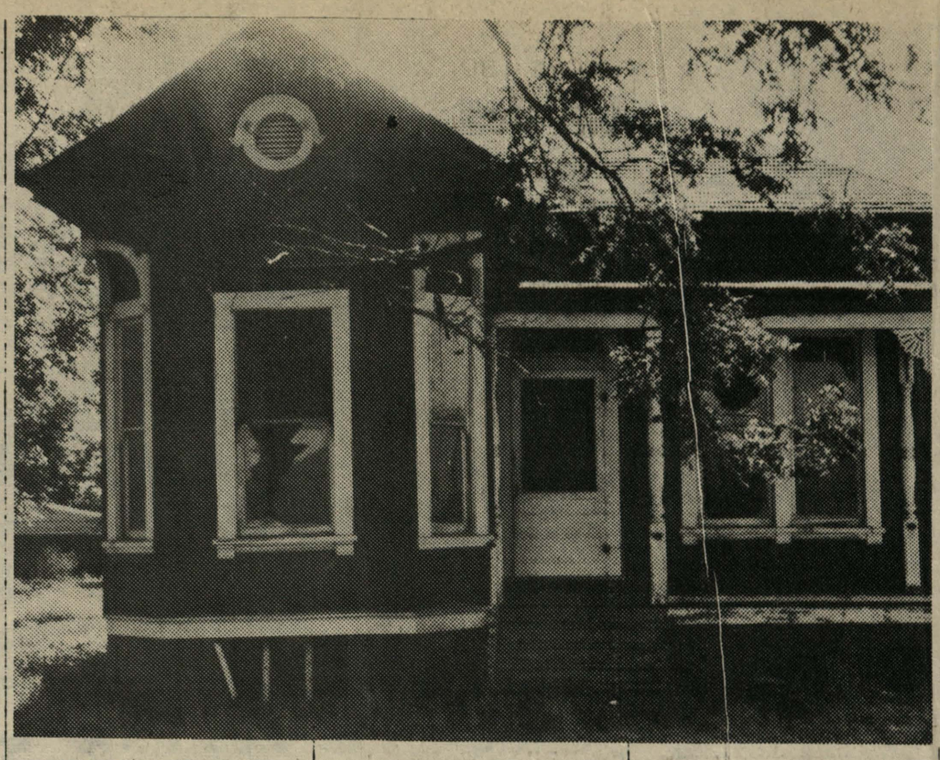
Favoritism, discrimination or special privileges are words disliked by all and should not even be implied, much less allowed.

Do you not agree? Ask your readers.

Sincerely yours,
BILL HARRISON

P.S. I personally last Sunday took pictures within the city limits with my Polaroid camera of 50 or more non-conforming signs, all more or less in violation of the present ordinance, i.e., signs up without permits.

B.H.



GETTING TOUGH--The City Council next Monday night will be asked by City Manager Bob Stephens to pass an "abatement resolution" which will allow the city to take court action to force Norman Husted, owner, to demolish the above pictured house at 1870 S. Bascom. Stephens said that the city has given the owner more than 100 days to comply with the condemnation order.

MORE ABOUT **City to award**

(Continued from page 1)

owned by Harrison is occupied by a restaurant and Harrison had requested that the sign "Betty's Inn" extend from the building. The planners ruled that the sign must be on the face of the building and that all other non-conforming signs be removed. Harrison claims that he should not be forced to remove the non-conforming signs unless all such signs in town be removed.

Stephens and Police Chief John Morgan will also report to the City Council next Monday on the request of the "Billiard Center" and "The Pocket" asking that the city modify its existing ordinance affecting billiard centers relative to closing time and age of customers.

Tiny park to be dedicated Friday by J.C.'s

Dedication of the little green oasis of lawn, fountain, trees and shrubs at the corner of Harrison and Campbell Ave., will be held Friday afternoon at 3 p.m.

The Campbell Jaycees have worked deligently in their spare time planting the lawn and shrubs and putting in the attractive little fountain under the gigantic walnut trees that have become a Campbell landmark.

The redwood slab bench anchored under the trees is fashioned from the famed "Roosevelt Redwood" which once stood at the corner of Winchester and Campbell Ave., but was removed two years ago in the face of the expanding Campbell traffic.

Jerry Duncan, officer of the Campbell Jaycees is in charge of the dedication ceremonies. City officials, Chamber of Commerce dignataries and members of the Campbell Jaycee group are expected to attend the ceremonies which will dedicate the tiny beauty spot, once a weed-covered unsightly eyesore, to the citizens of Campbell for their present and future enjoyment as part of the Campbell park system.

FOR FUEL

About half the timber harvested in the world is used for fuel.

Some important words on a serious subject

I hope you never receive a malicious phone call, but if you do, here are some things you can do to discourage the caller:

Hang Up—if the caller doesn't answer when you say "hello."

Hang Up—at the first obscene word or improper personal question.

Hang Up—if the caller doesn't identify himself to your satisfaction. And remember, never give your telephone number to an unknown caller.

If malicious calls persist, call your Campbell, Business Office, 288-9000. We have employees who are trained to assist and advise you and who can frequently help in identifying the origin of unwelcome and troublesome calls. Obscene or threatening phone calls violate state laws, and conviction can result in fines and imprisonment up to six months. We're working closely with law enforcement agencies in prosecuting violators. We want to do all we can to protect your right to privacy.

• • •

Here's a reminder about United Giving: "One gift works many wonders . . . your gift will be put to work where it will do the most good—and many needy people will be helped."

• • •

Want to know the cost of a Long Distance call before you place it? You'll find rates for calls to many major United States cities listed in the front pages of your telephone directory (along with lots of other helpful calling information). If the city you want isn't listed, just dial Operator and ask her. She'll be glad to give you the rate information you want.

W.V. College receives pages

The Board of Trustees of West Valley College Thursday night received rare copies and originals of pages of bibles of various faiths, in a presentation made by Stanley Slotkin, chairman of the board of directors of Abbey Rents, Inc.

The pages will be mounted and displayed in a library to be built on the new campus of the West Valley College, following successful passage of the Nov, 8 bond issue.

Pages donated by Slotkin were mostly from rare editions of the various bibles, including the Koran. He has the largest individual collection West of the Mississippi, of bibles of all faiths. He showed the Board, one of the prize possessions in his collection, a 700-year-old illuminated, hand-written edition of the Koran.

FEWER CITIES

LEGAL NOTICE

RESOLUTION NO. 2128

BEING A RESOLUTION OF INTENTION OF THE CITY COUNCIL OF THE CITY OF CAMPBELL TO GRANT TO SAN JOSE CABLE TV SERVICE, AND ITS AFFILIATES, A FRANCHISE FOR A COMMUNITY TELEVISION SYSTEM IN THE CITY OF CAMPBELL AND GIVING NOTICE OF THE TIME AND PLACE OF HEARING WHEN AND WHERE ALL PERSONS HAVING OBJECTION TO THE GRANTING THEREOF MAY BE HEARD

WHEREAS, there has been filed with the City Clerk of the City of Campbell by San Jose Cable TV Service, and its affiliates, an application for a franchise to operate and maintain a community antenna television system within the City of Campbell, pursuant to Ordinance No. 529, being Chapter 7 of Article VI, Section 6609, et seq, of the Campbell Municipal Code, and

WHEREAS, the said application was heretofore approved as to form and contents by the City Attorney and is presented herewith to the City Council of the City of Campbell and reference is made thereto by further particulars,

NOW, THEREFORE, the City Council of the City of Campbell declares its intention, pursuant to the provisions of the Franchise Act of 1937, being Chapter 2, Article I, Section 6201, et seq, of the Public Utilities Code of the State of California and Government Code Section 39732 (b) to grant aforesaid franchise to the applicant, which franchise shall be non-exclusive and for an indeterminate period, but not longer than twenty (20) years, and shall require that the grantee thereof and its successors and assigns will during the life of the same pay to the City of Campbell, a sum equal to two percent (2%) of the gross annual receipts of the grantee to be paid annually on the anniversary date of the granting of the same.

BE IT FURTHER RESOLVED that Monday, the 10th day of October, 1966, at the hour of 8 P.M. of said day in the Council Chambers of the City Hall of the City of Campbell, 75 North Central Avenue, Campbell, California, be and the same are hereby fixed as the day, time and place when the said application will be heard, and which time, but not later than the hour set for hearing of objections, any persons interested may make written protests stating objections against the granting of the franchise which said protests shall be signed by the protestant and delivered to the Clerk of the City of Campbell.

BE IT FURTHER RESOLVED that notice of the hearing on the said application be given by the City Clerk by publishing this Resolution at least once within fifteen days after its passage of the Resolution in the Campbell Press, a newspaper of general circulation within the City of Campbell.

Passed and adopted this 12th day of September, 1966, by the following vote:

AYES: Councilmen - Hyde, Rogers, Rose, Smeed, Doetsch
NOES: Councilmen - None
ABSENT: Councilmen - None
APPROVED: Ralph Doetsch, Mayor
ATTEST: Dorothy Trevethan, City Clerk

MORE ABOUT

City-West Valley College board

(Continued from page 1)

will take the matter under serious study.

They also indicated that they appreciated the city's cooperation during the three years the college has begun operating and were also pleased that the councilmen, despite many trying circumstances in the past, still wanted the college to become a part of Campbell.

Trustee Jack Armstrong during the discussion, touched on a sore point of the bond issue, which specifies that Santa Clara will be the first permanent campus, despite the fact that the district owns 134 acres in Saratoga.

Along with Bruce Allen, a fellow board member, Armstrong has opposed this policy of giving in to a small but powerful group in Saratoga who have opposed the college using the Saratoga site.

Armstrong claimed that Saratoga was the logical site and it was a tragic situation when the welfare of the students was involved.

The present overcrowded conditions of the present campus were compounded. Dr. Wallace Hall, college president, explained that some of the buildings of the old school have been vacated because they do not meet the Field Act standards. He said that 25 additional relocatable classrooms must be placed some place to accommodate the displaced students.

Councilman Ed Rogers, one of the strongest boosters for a small permanent college campus in Campbell, maintained that if Campbell was not going to be in the picture for the future of the college, he would suggest that the new 'portables" be placed some place else so as not to clutter up the "temporary" site any more.

Allen said that the portables could go on the Saratoga site if that site was developed as a campus.

All five of the college board members present, Brydon, Armstrong, Allen, William Homan and Don Lindstrum and the five councilmen, Ralph Doetsch, Charles Rose, Ed Rogers, Bill Smeed and Homer Hyde, participated in the friendly discussion.

City Manager Bob Stephens, Dr. Hall and Gene Arnold, dean of campus facilities, also took part.

Mayor Doetsch in urging that Campbell be considered as a future campus site suggested that perhaps additional acreage could be purchased to supplement the present temporary campus.

Councilman Hyde emphasized that the present enrollment of the college had created a severe traffic problem in town and that Campbell would have to put up with a great deal in the next few years, if the present growth pattern continued. He thought that Campbell was owed something because of that factor and, he added, that it was a question of just how far to go before major problems developed.

STOP-GAP

Council members especially disliked the term "stop-gap" that has been used to describe Campbell.

Councilman Rose pointed out that during the college stay in Campbell, "the citizens would have put up with a lot and would have had nothing" when the college left to its permanent home.

He commended the college for its record and enthusiastically endorsed the idea of a permanent campus in Campbell.

Councilman Smeed indicated he was opposed to any more "huts" as a "stop-gap" measure and the "temporary" status should be concluded as soon as possible, if there were future plans for utilizing the Campbell site.

Most of the meeting was devoted to discussing the future of the college as related to Campbell.

Another item on the agenda concerned the request of the college that additional pedestrian crosswalks be placed either on Winchester Blvd. or Campbell Ave., so that college students go from part of the campus (Latimer Ave.) to the far corner (Rincon) at a faster clip.

Two students told the group that it now takes more than the 10 minutes allotted between classes to make the jaunt.

City Manager Stephens said that the staff had researched this and felt that additional crosswalks would compound the vehicular traffic now using the streets.

The thought was expressed at the conclusion of the meeting that it might be wise to have another joint meeting after the bond election as the results of the vote will have an important bearing on any plans for the future.

Planners okay house-office for college

West Valley College on Monday night was given the approval of the Planning Commission to use a residence at 1885 Winchester Blvd., owned by Mrs. Elizabeth G. Haynes, for college office purposes.

The approval, however, specified that the residence must be brought up to both fire and building codes and the parking area improved before the use permit will be issued.

At Monday's meeting the commission also approved plans for a Shell service station at 771W. Hamilton. The location for the station had already been okayed in the PD development as submitted by Sutter Hill Development Co.

Plans for a warehouse at 735 McGlincey Lane as submitted by Elmo Pardini also were approved.

In other actions, the commission:

--EXTENDED the time limit for Dr. C. E. Jacobsen to construct the animal hospital at 130 Casey Rd.

--APPROVED a wall sign for Wil-Roc Cleaners at 882 Camden Ave.

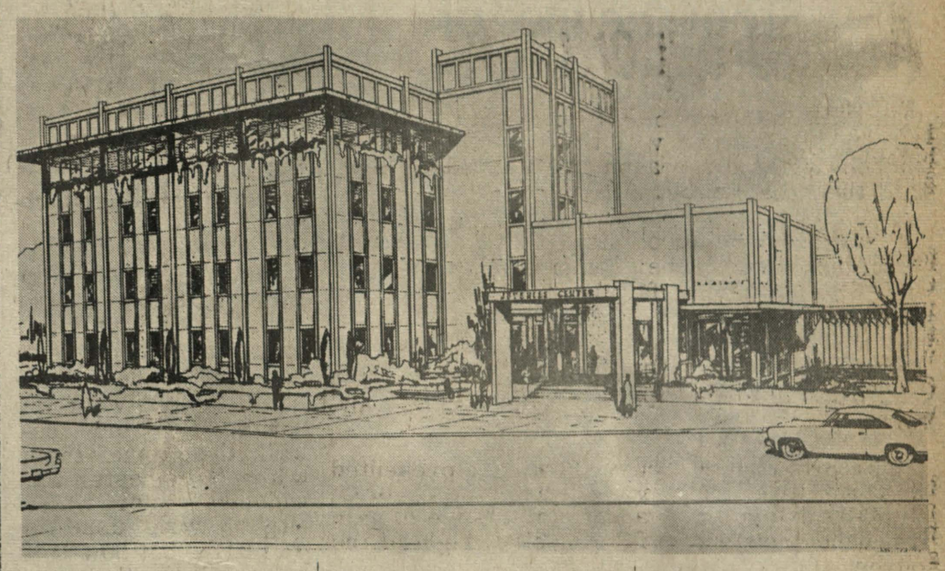
--APPROVED the application for a windbreak for the A&W Drive-In at 2145 Winchester as submitted by Floyd Little.

--APPROVED the variance request of Darrel Coleman with respect to open space requirements on a 260-unit apartment development at Budd and San Tomas Expressway.

--APPROVED the open space variance request of Arthur Ring to allow a second story to garage at 207 Victor.

--APPROVED the tentative subdivision map submitted by Pyramid Homes on south side of Gale Dr.

--CONTINUED until Oct. 3, the use permit application of Daniel O'Keefe for an automobile spray unit at 261 McGlincey and the zone change request of E. R. Cook at 282 W. Sunnyoaks.



NEW COUNTY JUVENILE FACILITY--a 58,600 sq. ft. expansion of present Civic Center complex, is under construction with $1,518,771 voted for project in countywide bond campaign.

Grass Roots

Some gardeners might consider a rocky terrain as a drawback. There are others who derive great pleasure from gardening on the rocks, and the rockier things are the better they like it. These latter, in fact, will haul rocks in and work long hours to build their own rock garden where no natural one exists.

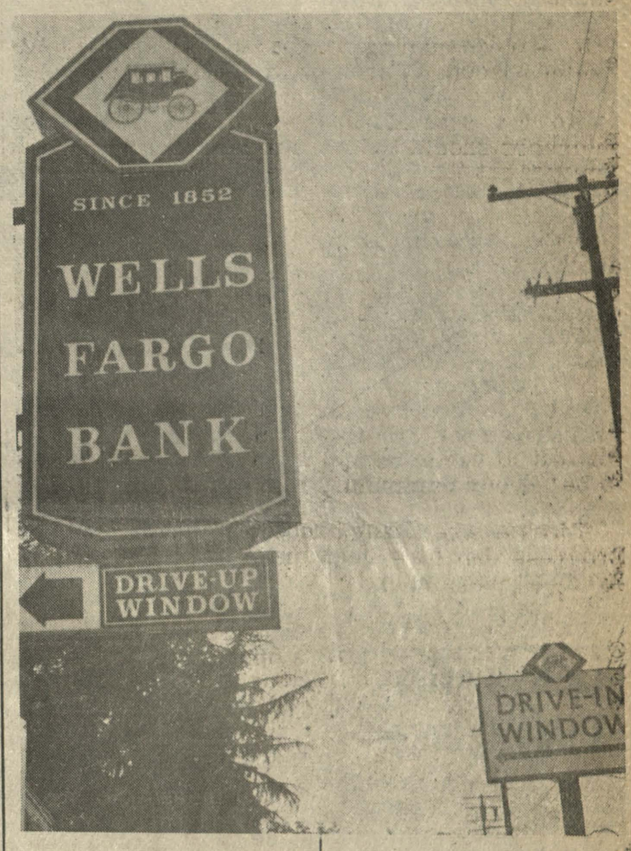
Why? Well, try it and see. Once you've puttered and poked around a hillside garden, seeking combinations of plant material and rock to create "natural" effects, gardening on the level can seem pretty tame.

Rock gardening is a very personal type of gardening--more a hobby than otherwise. There are always new bulbs to plant, new perennials to try, new effects to be created. If you are not a putterer, forget it. If you are, there's great pleasure and not a little relaxation to be found in creating a garden on the rocks.

For planting in rock gardens, the California Association of Nurserymen has several recommendations. Perennials are at the top of the list: Baskets of Gold Alyssum, Creeping Phlox, Trailing Campanula, ground Morning Glory, catnip, pinks, rockcress, thyme, and many others.

Bulbs are also indispensible. The little bulbs such as Grape Hyacinth, crocus, Wood Hyacinth, and miniature daffodil are delightful.

For shrubbier planting, try Dwarf Heather, daphne, junipers, azaleas, and whatever else strikes your fancy. You'll find that rock gardens are always subject to change, because new materials always come to mind.



TAKE YOUR CHOICE--Wells Fargo, in Campbell probably doesn't care wheter you "drive-up" or "drive-in" to the one window in the "drive-way" off Campbell Ave.

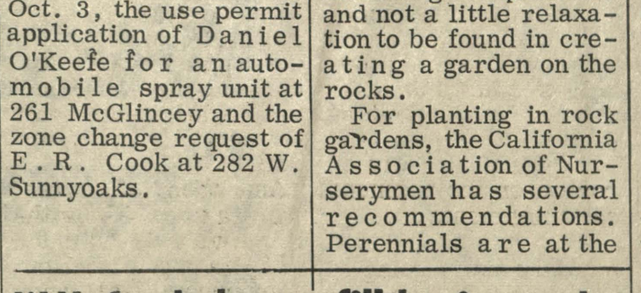
W.V. food classes fill basic need

Thomas Devins, coordinator of the West Valley College food services and restaurant management program told the college's advisory board recently that all college classes in basic foods and related subjects are already filled to capacity.

Devins attributed this to "the rising standard of living in America which is increasing the tendency to "dine out". This in turn indicated the need for such training in the Bay area, brought about by the demands of technicians management personnel and other high-salaried persons who have migrated to this area.

Devins noted that six new junior colleges food training programs have been started within the past year in Florida and that expansion of programs from two to four years have recently been undertaken in colleges in Illinois, Colorado and New Hampshire.



Sure hope you enjoy this little column we intend to bring to you each week and, although we plan to touch many, many subjects in which the automobile is the principal subject, you can anticipate our touching on many other tales of the hi-ways and by-ways in this, our column, "WHEELING" . . . .

There are many cars that have stirred men's souls in the more than half a century of automotive history . . . Tens of thousands of cars have been designed, but only an elite few will always be remembered . . . Cherished chariots that stuck fire in the hearts of men. . . .

Among these were the great power gliders of the race tracks - high wheeled, hard riding and brass bright, their gaudy guts growling with power, great iron engines spewing the magic perfume of castor oil. . . These were the giants of the road. . . The stuff a man's dreams are made of. . .

Next week we're going back to 1916 and the Peirce Arrow. . .

The service you receive from your auto is determined by the care and upkeep it is given. . . Be sure your auto needs are filed by an expert . . . . MELS HAMILTON PLAZA MOBIL SERVICE. . . . engine & brake specialists. . . 1603 South Bascom Avenue 377-4402.

1 YEAR AGO

The uneasy truce in the "Battle of the drive-in" that has been in effect since Monday, Aug. 16, is expected to be broken wide open next Tuesday when the Planning commission convenes. The heated pro and con arguments involve the issuance of a use permit for a drive-in theater to be located on the Brynteson Ranch at Campbell and Bascom avenues.

The Campbell Police Department recently installed a microfilm operation that consolidated 10 years of case reports, consisting of 50,000 papers, into 12 rolls of film.

Members of the congregation of The First Christian Church of Campbell and well-wishers from this and other communities gathered for ground-breaking services for the church that is soon to be erected.

5 YEARS AGO

Douglas Rideout, 16-year old Campbell youth, has ended his 23-day role as crewman for the trans-Pacific racing yacht, "Rhondo". Douglas is the son of Ernest Rideout, principal of the Dover School in the Campbell School District.

Lois Ellis, 18, daughter of Mr. and Mrs. Manuel M. Silva, of 575 Apricot, Campbell, competed as "Miss Campbell" in the Santa Clara County Fair Queen Contest on Saturday.

Plans for more than $350,000 in new construction in Campbell were given the approval of the Campbell Planning Commission last week when the planners okayed a new bank building, a shopping center and a body and fender shop.

10 YEARS AGO

"Service station saturation!" - This was the term used to describe the situation that exists now in Campbell at the public hearing on a zone change request before the Planning Commission last week.

The energetic city attorney, Joseph Bonacina, is planning to leave on an extended trip to Europe the first of next month, and he has prepared a variety of items for the City Council's perusal and action.

Miss Dolly Geis, 21, was chosen Miss Campbell recently at a contest held at the Villa Felice by the Campbell Junior Chamber of Commerce.

15 YEARS AGO

The faculty of the Campbell School District has been enlarged to 102 instructors this year, an increase of 12 teachers over last year's staff.

Evelyn Steinkamp and Robert Knowles announced their engagement at a party held in Berkeley recently. Knowles is the son of Mr. and Mrs. J. W. Knowles, 140 Rincon Ave., Campbell.

Mrs. Charles Chubb, chairman of the petition committee for Campbell incorporation, announced that petitions calling for a special election on the issue of incorporation for the Campbell area will be circulated starting next week.

Church offers study course

St. Lawrence Episcopal Church, Campbell, will offer a special adult study course, Archaeology and The Bible, beginning Tuesday evening, Sept. 27, at 8 p.m.

Supplemented with artifacts from several archaeological expeditions and slide pictures, the course will cover the method used in archaeological research, explore several digs, tying in finds with Bibical references, trace the migration of people in the Holy Land and the development of language.

The Dead Sea Scrolls and the Esene community will also be discussed.

The course will be presented by the Vicar of St. Lawrence, the Rev. A.D. Carson and is open to the public.

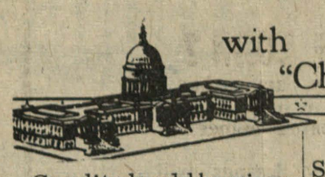
ON CAPITOL HILL

with "Charlie" Gubser



Credit should be given where credit is due.

This week, everybody's whipping boy (and frequently the butt of strong criticism by this writer), the U. S. State Department, is justly due some credit.

With their activity in the recently concluded elections in Vietnam, State Department employees have accomplished a diplomatic masterpiece. Through painstaking, patient and self-effacing efforts they have converted a delicate and explosive situation into a great coup for freedom and the principle of self-determination.

Considering the risks and the odds involved, their success should go down in history as a milestone in diplomacy.

In my opinion the State Department didn't really want elections in Vietnam this soon because the political stability so necessary for a truly free election was simply not in evidence. But with the Buddhist uprising of last summer against Ky's military government, it became obvious that the time table for free elections had to be updated.

This required facing up to the difficult question of how to hold elections and guarantee that they would be free. Here was a country that had known nothing but war and political unrest for more than a generation. Its people, conditioned only to colonialism and exploitation, had never experienced the right to cast a free ballot.

The Communist Viet Cong, realizing that a successful and free election would drastically harm their cause dedicated themselves to terrorism, duress, and any tactic which would doom the election to failure. For different reasons the Buddhists heirarchy urged a boycott of the polling places.

Such opposition required aggressive action by U. S. advisers, the only persons in Vietnam in sufficient numbers who had knowledge of how free elections must be run.

But, to a populace conditioned only to colonialism, domination of the elections by our State Department people could have been fatal. The delicate balance between honest influence and dictation had to be established with the skill of a surgeon.

How well our people met this challenge is demonstrated by the fantastic results. No responsible non-Communist force has suggested U.S. domination of the election in which more than 80 per cent of the South Vietnamese voted despite VC terrorism and Buddhist boycotts.

It is significant that Ky himself had estimated only a 60 or 70 per cent turnout and in all U. S. history we have never turned out 80 per cent of the voters in a national election. In the coastal areas where the Viet Cong are most powerful, the turnout was more than 90 per cent.

Though the North Vietnamese called the balloting a "farce", it is important that the charge is not supported by more than 400 news correspondents who personally witnessed balloting. The election results showed no one force dominating.

Successful candidates included 30 Roman Catholics and 34 Buddhists. Only 18 of 50 military candidates prevailed.

This election was a great step forward toward the goal of freedom and self-determination. For the part it played, our State Department can take a well earned bow!

New director for county EOC

Jorge Acevedo, 51, a man with extensive experience in counseling and education, has been named deputy director of the Economic Opportunity Commission of Santa Clara County, Inc. by J. Philip Buskirk, executive director, starting Sept. 19.

A graduate of the University of Southern California with a B.A. in sociology, Acevedo received his M.A. from Stanford University in Spanish and Hispanic American studies. He holds three teaching credentials: elementary, secondary, and junior college education.

Acevedo lives with his wife and five children at 541 Menlo Oaks Dr. in Menlo Park. The salary range for this position is $1225 to $1489 monthly.

PMA employment conference

Top management people from manufacturing and related industry will consider new information about the broad problems of hiring "marginal" workers at an afternoon seminar sponsored by Peninsula Manufacturers Association at Rickeys Hyatt House, Palo Alto, on Wednesday, Sept. 28.

The program begins at noon with a steak luncheon and will end about 4 p.m. Reservations can be made at the PMA office, 624 1st Ave., San Mateo, telephone 345-8576.

PMA President Marion L. Sellers, manager of public relations, Lockheed Missiles & Space Company, will act as master of ceremonies and discussion moderator.

Speakers will be J. Philip Buskirk, executive director, Economic Opportunity Commission of Santa Clara County, Inc.; Patrick M. Manning, manager salary administration, Philco-Corporation Western Development Laboratories, Palo Alto; the 1964 PMA president, William Hern, now chairman, Human Resources Commission, San Mateo County, and Daniel E. Kain, director personnel field services, United Air Lines, Chicago.

PMA is sponsoring this conference to provide a fresh examination of the major problems of hiring workers handicapped by inadequate education or job training, physical or mental problems, minority status, and the smothering restrictions of poverty. The public is invited.

Our Town

By Grace Hebard

J. RICHARD GEORGE and ALTON LA PLANTE have qualified as members of New York Life Insurance Company's Star Club for 1966 and are attending this year's convention at LAKE TAHOE...Wedding bells for ELLEN FLOYD of Sunnyvale and KURT W. RITTER of Campbell who were married Aug. 27, in the chapel of the First Methodist Church. REV. WILLIAM GOULD was the officiating clergyman at the private ceremony, attended by only members of the families. KURT and ELLEN are now doing graduate work at the University of Indiana...

New students enrolled this fall at College of Notre Dame in Belmont are PATRICIA McKILLIP and DIANNE RAWLINSON of Campell...There will be a reception Sunday between 2 and 4 p.m., at the Congregational Church of Campbell honoring their new pastor, REV. ANTHONY WAYNE MYERS...

The numerous friends of Jack Fishcer will be interested to learn he has been transferred to BEVERLY MANOR CONVALESCENT HOSPITAL, 14966 Terino De Flores, Los Gatos. The former principal of SAN TOMAS SCHOOL is recuperating slowly from serious brain surgery and visitors are limited...

GOOD SAMARITAN HOSPITAL will be a year old Sept. 22, in observance of the occasion employees, members of the staff and volunteers have been invited to a Thursday afternoon birthday party where a 150 pound cake in the shape of hospital buildings will be served...

CORRECTION: Donations to the Premature Infant Research Fund should be sent to EUGENE BIRK, care of FIRST SAVINGS AND LOAN Association, 360 Winchester Blvd., San Jose.

GOODBYE and GOOD LUCK to ED RAVENSCROFT, former administrative aide to City Manager BOB STEPHENS, ED has decided to go into the teaching field...

School time is Grange theme

A hilarious skit entitled "School Daze" was presented by members of Orchard City Grange at their last meeting. In keeping with the school theme, Mrs. Bertha Raab spoke on modern methods in public school education.

A regular business session followed the program. Mr. and Mrs. Perrin Martin, County Fair Booth Chairman, presented a check for $300 and the Blue Ribbon to Master Al McCoy. The local Grange won first prize at the Santa Clara County Fair for their booth. Brother Perrin Martin was also elected as alternate to the coming State Grange Convention to be held in Stockton, Oct. 18-21.

Sept. 27 is Booster Night. It is an open meeting and friends and neighbors are invited. A program will be presented and refreshments will be served.

Movie club to show top films

San Jose Movie Club presents its 23rd Annual Salon, on Saturday, Sept. 24, at the Edwin Markham Junior High School, Cottle Ave., and Malone Rd., San Jose.

Top amateur films from all over the world will make up the program. These films were selected by the Photographic Society of America in an international cinema competition conducted by its Society of Motion Pictures Division, in 1965.

According to Salon Chairman Ed Putney, an excellent program is guaranteed.

In addition to the P.S.A. films, the local club's "picture of the year," "Denmark Transplanted," by Marvin Hinton, will be presented.

The films will be shown in the school's little theater, beginning at 8 p.m., and the public is cordially invited to attend. Admission is free of charge.

Jack L. Kraft claims bride

The many local friends of Jack L. Kraft will be interested to learn of his recent marriage to Jarith Allen, daughter of Mr. and Mrs. James M. Allen of Cottonwood, Calif.

The ceremony and reception was held in the V. F. W. Hall in San Jose and attended by approximately 75 friends and relatives. Pastor Dennis Lukor officiated. The vows were exchanged as the couple stood between two huge bouquets of white gladioli, mums and stock. The bride's gown of white satin was trimmed with lace and she wore an elbow length illusion veil. Mrs. Judith Burch, the bride's twin sister served as matron of honor and John Jester was the best man.

The bridegroom is the son of Mr. and Mrs. Ray Kraft of 924 Kenneth Ave., Campbell. He has two brothers, Kenneth Kraft, and Don Kraft, who is serving with the United States Air Force in Utah. Jack is a graduate of Campbell High School and was formerly employed by the Campbell Post Office. He is now employed by the City of Santa Clara in the Public Works Department.

The new Mrs. Kraft was employed by Bechtel Corporation in San Francisco prior to her marriage. The newlyweds will make their home in Santa Clara.

University women slate membership tea Sept. 24

Prospective and active members of the American Association of University Women will be honored at the San Jose Branch's annual Membership Tea on Saturday, Sept. 24, at 2 p.m., in Leininger Community Center, Kelley Park.

Several Campbell residents are included in the group of section chairmen, who will be setting up special exhibits to explain the many study groups and special interest sections in AAUW.

Mrs. Joseph McSwiggin is chairman of the Tuesday Club; Mrs. Peter Zaklan is chairman of the Wednesday Book Discussion Group and Mrs. John Albrecht is chairman of the Valley Puppeteers.

Included in the program will be a speech by Mrs. Roger Winegar, the California State Division President. She will explain the educational aims and purposes of AAUW in her speech entitled, "Great Decisions for AAUW in 1966-67.

Branch activities include monthly luncheons and coffees with guest speakers. To provide fellowships for women doing graduate work, a vanishing bridge tournament and a traditional Christmas Tea are also scheduled.

The membership tea will have an Oriental motif worked out by Mrs. Frank Havens, tea chairman, and her committee. College graduates interested in attending the tea or applying for membership are asked to contact the membership chairman, Mrs. George D. Collins at 265-8201 or the assistant membership chairman, Mrs. Milton Pace at 241-8258.

PTA News

CAMPBELL ELEM.

The activities for the coming year were planned at a recent board meeting of the Campbell Elementary School Home and School Club.

First event of the year was the general meeting in conjunction with Open House and Conferences held Tuesday evening, Sept. 20.

Other events will include a candy sale, Christmas Program, Spring Concert, sports show and Spring Festival.

Dick Ford dance classes begin

The 1966-67 fall semester of the San Jose Chapter of the Dick Ford Creative Dance, a non-profit group, begins classes for children this week.

An affiliate branch of the Pacific Dance Guild, classes are open to boys and girls, ages 3 1/2 and up for the San Jose - West Valley - Willow Glen - Cambrian areas. All classes are held in the Cambrian Public Library recreation room on Union and Camden Avenues.

Further information can be obtained from Mrs. Robert Sutton, 225-1719

Social Side

Carolyn Archibald and Don Flohr set the date

CAROLYN ARCHIBALD

Mr. and Mrs. W. L. Archibald of Redwood City, former residents of Campbell, announce the engagement of their daughter, Carolyn, to Donald Carl Flohr, son of Mr. and Mrs. Melvin Flohr of Santa Rosa. The couple is planning a December wedding.

Carolyn is the granddaughter of Mrs. Eva Archibald and the late Roy C. Archiblad of Campbell, and Mrs. William Rodrick and the late Mr. Rodrick of Los Gatos. She is a graduate of Campbell High School and San Jose State College where she majored in elementary education.

Don is a history teacher at Wilcox High School in Santa Clara. He is a graduate of Santa Rosa High School and the University of Santa Clara.

Boy Scouts

Boy Scouts in the Pioneer District, Santa Clara County Council, Boy Scouts of America, serving the Campbell area will be practicing ropework and use of woods tools during Sept. in preparation for pioneering camps, according to George Wise, the district's scout commissioner.

month will require

Contests during the month will require building and using a monkey bridge, a Spanish windlass, a two-rope bridge, a log raft, and a rope ladder.

"The eight, nine and 10-year-old Cub Scouts will follow the theme, Cub Scout 49'ers, and will carry out activities that will review some of the events that were a part of American heritage, Wise said.

High-school age Explorers will select from several suggested activities such as projects related to promote natural beauty, learning the proper handling and storage of firearms, and be creative, to acquaint Explorers with basic concepts involved in creative thinking.

"All Cub Scout, Boy Scout and Explorer units in the Pioneer District will also be starting the fall round-up for new members and will be holding special meetings for boys who are not Scouts," Wise said.

Wise also announced that many of the Scout units in the Campbell area observed Citizenship Day on Saturday, Sept. 17, and Constitution Week from Sept. 17 to 23. The national observance honors all citizens who have reached voting age or have been naturalized during the year.

Clark Kerr to speak in San Jose Sept. 29

University of California President Clark Kerr will speak in San Jose at an open dinner meeting of the Iniver-Club of Santa Clara County on Sept. 29 at Lou's Village restaurant.

Following his talk on "The Real Issues in Higher Education", Dr. Kerr will be available for an informal question and answer session according to University Club President Jerry Lee.

Lee said tickets for the dinner are available to the public and may be obtained by calling 379-7720 or 323-9615.

School food service assn. elects officers

Several local residents were elected officers of the California School Food Service Association, Peninsula Chapter, for the 1966-67 school year. The new officers are Mrs. Irene Sieve, Pacific Grove, president; Mrs. Gertrude Buchanan, Saratoga, president-elect; Mrs. Pearl Calabrese, Campbell Elementary, legislative; Mrs. Eleanor Gleed, Campbell High, parliamentarian.

The Peninsula chapter is composed of Directors of the National School Lunch Program in their respective school districts Twenty-nine districts are represented in this group ranging from Pacifica to Santa Cruz and Monterey Peninsula.

S.S. OFFICE

The Social Security Office has moved to their new location at 500 S. First St., San Jose, California and will continue to remain open every Thursday evening until 8:30 p.m., according to John J. Cassidy, District Manager.

Holy Name has dinner meeting

The Holy Name Society of St. Lucy's Church, Campbell, held its annual dinner meeting on Monday night, Sept. 12, in the Parish Hall with 180 men in attendance. An Italien dinner and refreshments were served.

Guests of honor were Rev. John M. Lally, Pastor; Rev. William Duggan, assistant Pastor; and Rev. Milan I. Hlebs, assistant Pastor.

One of the unique features of the festivities was the tracing of the history of the organization by Jerry Briitan, president, from its formation in 1954 to the present. Past presidents, Bill Ahern, Hank Carey, Pete Giorgianni, Chuck Daly, Clark Barkowski and Emil Ranallo were introduced. President Brittian also outlined the society's program for the coming year.

GRANGE BREAKFAST

Orchard City Grange No. 333 will hold its regular monthly breakfast on Sunday, Sept. 25, from 9 a.m to 2 p.m. at the Grange Hall, 109 N. First St. Campbell.

The public is invited to attend.

Ten from here admitted to Davis campus

Approximately 1900 new students have been admitted to the Davis campus of the University of California for the fall quarter, according to Registrar Elmer Wagner. The total enrollment at Davis for the new quarter is expected to reach 9000 in the Colleges of Agriculture, Engineering, and Letters and Sciences, in the Schools of Veterinary Medicine and Law and in the Graduate Division.

New students from Campbell are Michael S. Calvert, freshman, letters and science; Carol L. Collins, junior, entomology; Dennis A. Evans, freshman, preveterinary medicine; Harvey M. Henselman, freshman, preveterinary medicine; Laura B. Johns, freshman, letters and science; Elaine R. Johnson, freshman, letters and science; Teresa S. Kalvelage, freshman, letters and science; Richard A. Lohsen, freshman, engineering; Sharon J. Whistler, freshman, preveterinary medicine; Nancy C. Young, freshman, family and consumer science.

FIRST AID COURSE

Dr. Charles L. Johnston, Jr., chairman of the First Aid Committee, San Jose Chapter, American Red Cross, announces a new Advanced First Aid Class will begin on Sept. 23, from 7:00 to 10:15 p.m.

The classes will be held in the Red Cross Building, 333 McKendrie St., in San Jose. Volunteer instructor for this course will be Manuel G. Maral.

Eastfield centennial picnic Sunday, Sept. 25

Hay wagon rides, music by a barber shop quartet and the colorful Guckenheimer Sour Kraut Band, bocci ball and other games, classic cars and Gay 90's costumes combine (along with food, of course!) to make Eastfield's Centennial Year Picnic in Kelley Park, San Jose, Sept. 25, a day for a nostalgic family outing.

The family style picnic is a day-long affair, beginning at 10 a.m., and going full blast until 5 p.m., with lunch planned from noon to 2 p.m. Families may bring their own picnic lunch.

In addition to old fashioned entertainment and games for the whole family, there will be historical displays and photographs of early-day Eastfield (Home of Benevolence) personnel, officers and directors. Among the famous cars on display will be an Osen automobile made in San Jose around the turn of the century, and Lady Astors's (NOt her pet horse) 1935 Phantom II Rolls Royce formal town car.

TB Association asks for help

In a word, that's the word from the local Christmas Seals organization, the Santa Clara County Tuberculosis and Health Association.

Mrs. Ann Castellanos, executive director, explained that the organization has 260,000 envelopes to be stuffed with Christmas Seals to be sent out in the mails to householders throughout the County.

"That's a lot of stuffing," Mrs. Castellanos admitted, "and help is desperately needed."

Volunteers may come individually or through organizations, she said, and office hours are 9 a.m. to 5 p.m., bring your own lunch, coffee supplied.

"You can bring the members of your bowling team or your basketball team," she said, "but we do need all of the help we can get if we are going to meet our deadline in getting out the Christmas Seals to the people of Santa Clara County."

If you or your group is interested, you should contact Mrs. Castellanos or Mrs. Marjorie Broome at the Christmas Seals headquarters, 1144 N. 4th St., San Jose, telephone 295-3533.

Church women plan hat sale

Church women of St. Francis Episcopal Church, Newport and Pine Ave., San Jose, are presenting their annual 'Chez Chapeaux" hat sale and Silver Tea in McNaught Hall on Friday, Sept. 23.

There will be hundreds of hats to choose from, direct from the East coast, reasonably priced. Mrs. Andrew Coyne is chairman. The sale begins at 10 a.m. and closes at 5 p.m. Dessert will be served.

A number of Campbell residents are members of St. Francis Church, including the William Mettes, the Don Haydons, Mrs. Ernest Rideout, and the Bennet Lancasters.

CRAYONS

Crayons, chewing gum and ski wax all contain beeswax.

Woman's club plans picnic

The Country Woman's Club of Campbell will hold its first meeting of the fall season on Monday, Sept. 26, at 12:30. It is to be a pot luck picnic at the Willow Street Park, San Jose.

Speaker for the day will be Mrs. Wyland R. Morgan, president of the Loma Prieta District, California Federation of Women's Clubs. A pleasant afternoon is anticipated and all members are reminded to attend.

Guide TO Glamour

How often we've heard the words "crowning glory" applied to a woman's hair, but how many women are letting themselves be truly glorious? Really well done hair can glorify the plainest face, show it to the best possible advantage. The proper coiffeurs will give balance to the face and head, and to the hairline as well. Your hair is an essential part of the picture that your whole head conveys to the beholder, and your head is that part of you which mirrors your character. . . . the real, complete you. Lovely, integrating coiffures, which add to the totality of your loveliness, are available to every woman. She may do her own styling, but she should insure her success by consulting professionally trained beauticians. . . .

More often than not, a MAN'S HEAD IS TURNED BY LOVELY HAIR. . . come to ZIN-RO'S COIFFEURS. . . 2294 South Bascom Avenue. . . "true color" rinsing and tinting. . . Fast "In and Out" appointments. . . wigs or wiglets styled and cut to your personality with that "Does she or doesn't she wear look". . . Phone: 377-3308

OCT. 5TH IS D DAY

A Dazzling, Decorative, Different, Delightful, Dynamic, Diversified, Distinguished and Well-Designed publication is coming your way . . . on D-DAY, OCTOBER 5th.

Campbell Bucs meet Soquel in pre-league game Friday night

Del Mar Dateline

by LINDA DEL GRANDE

Del Mar's 1966-67 enrollment is 1689. Due to such a large turnout, many students have been left without a locker and have to

Next Tuesday, student body cards will go on sale for seven dollars. They will be sold during period 6-a or in front of the Dean's Office:

Fall semester student body officers are Scott Thibads, president; Tim Shannon, vice-president; Cathy Casey, secretary; Tom Fry, treasurer; Nancy Yaggy, manager. Councilmen are Al Conroy, Cathy Parker and, Winifred Powell.

The incoming varsity cheerleaders are Dianne Chirolas, Nancy Gearhart, Sally Greenby, Paula Neil and, Karen Pelikan.

Frosh-soph cheerleaders are Joanne Edgmon, Karen Frietas and Kathy Yaggy.

New song girls are Karen Adcock, Dianne Harding, Sue Bastian, Nancy Robinson, Lynn Roessler and, Nancy Schrader.

Mrs. Virginia Darney is new advisor of the Journalism Department.

Our first football game will be held at Kennedy High on Sept. 23, beginning at 8:00 p.m.

Del Mar cafeteria is now providing lunches a la carte instead of the regular 35¢ hot lunch.

Classes vacate five classrooms at WV College

Five classrooms in Building A, which does not meet the requirments of the Field Act regarding earthquake safety, at West Valley College, have been abandoned, and students attending those classrooms will use other facilities throughout the campus area, Dr. Wallace Hall, college president, has reported to the board.

Still located in Building A, however, are some special classrooms, such as science labs, library facilities and administrative offices. Plans are being prepared for additional relocatable classrooms to provide additional facilities and replace the remaining units in Building A.

The board decided informally that the entire question of the future of all relocatable buildings either being constructed or already being occupied, would be the subject of a special discussion at its Nov. 17 meeting, after the results of the bond issue are known, and more reasoned judgments can therefore be made.

The board authorized a three-month extension of leases on the Saratoga property, after Gene Arnold, dean of campus facilities, explained that the administration feels it is far more practical to continue leases on these properties on three-month agreements rather than let them stand empty and be subject to valdalism.

Campbell 4-H to hold open house Sunday

Observance of annual 4-H Sunday will be marked by the Campbell Community 4-H Club next Sunday, Sept. 25, when the group holds open house for members, prospective members, parents and leaders.

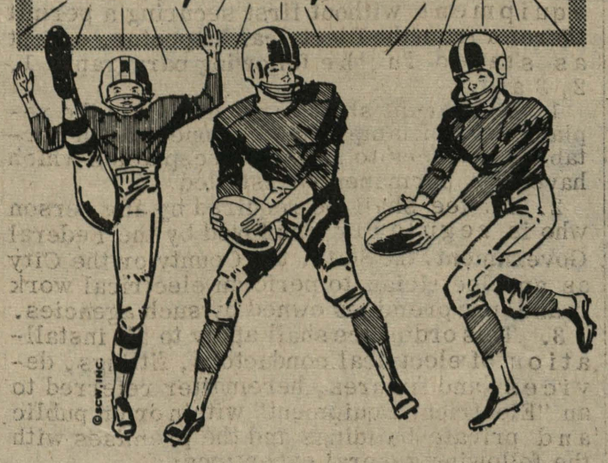
An invitation is being extended to visit and get acquanted with the group, and to learn about the activities and objectives of the 4-H program open to young people ages 10 to 19.

Open House will be held at the home of Mr. and Mrs. Robert Wilkerson, 2101 Saverio Court, Campbell, from 1:30 to 3 p.m. Sunday.

Earlier in the day, 4-H'rs will attend church as a group, marking observance of the annual day as a time "for seeking the blessing of God upon the land."

Persons interested in joining group attendance at church are invited to telephone Vince Bicocca at 379-1858 for Catholic denomination or Mr. and Mrs. Wilkerson at 379-5838 for Protestant denomination.

Punt, Pass, and Kick



Campbell Crier

by DAVE TURNER

Campbell High School students put in what I would term a rather typical first week of school. Students wandered through the halls greeting friends they had forgotten for three months, looking for room numbers, and inquiring about new teachers.

Following a welcome by Principal Robert Culp at an opening day assembly, Student Body President Jim Chamberlain humored students while soliciting student body card orders.

Most students seemed relatively happy to be back and, with one major exception, had no gripes, so to speak. That one exception was the new a la carte system being employed in the cafeteria for the first time. The food served is, of course, good, but many students are finding it hard to eat well and stay within their means at the same time. Hearsay from Mr. Culp reveals no changes in sight as the present. It was interesting to note, however, that the lunch line on the second day was decidedly smaller than that of the first day.

SADDLE SHOES

Fashions showed a continuation of trends which were beginning at the end of last year. Paisley shirts and wide wale cords were seen on many boys, while the females continued with white nylons, full length stockings of all shades, and a wide array of medium high heels. One new style which is catching on is saddle shoes. Actually I guess its just a very old style returning - my mother used to wear them.

Last Friday, Sept. 16, the social season officially opened at Campbell with an unprecedented first week dance, the "Howdy Hop," with live music provided by The Warlocks. The turnout was much better than anyone expected and, consequently, everyone throughly enjoyed themselves.

FRESHMAN RALLY

Campbell witnessed another first on Friday, a Freshman rally. The thundering roar of the enthusiastic Frosh reached into every corner of the campus as the yearlings got acquainted with the spirit promoters and school yells. An all school rally will be staged this Friday to whip up spirit for this season's grid opener with Soquel.

The cast which stars in these rallies consists of thirteen energetic lasses who give it all they've got. Leading yells for the varsity games will be Cheryl Coffman (head), Sheri Garlick, Peg Hebard, Bobi McLain, and Lisa Nickerson Supporting the Soph-Frosh team through all that may come their way will be Loretta Magnasco (head), Nan Hefte, and Alice Holtorf. The bouncing song girl line-up includes Sherry Okabe (head), Janice Maruyama, Carolyn Melvin, Lisa Murray, and Vicki Ridgway.

I would like to take this opportunity to invite all my readers to the opener of the 1966 pigskin schedule. Both teams will be in action against Soquel at Cabrillo College stadium this Friday, Sept. 23. The Soph-Frosh game will start at 6:00 p.m., and the varsity kickoff is scheduled for 8:00 p.m.

BUTTERFLY

The female monarch butterfly migrates from Alberta to California, on the West Coast and from Maine to Florida on the East Coast and return.

Adult school offers class in arc welding

A new class in advanced welding, with Van Dyson, instructor, is now being offered from 7:00 to 10:00 Wednesday, at the Campbell Adult School Center welding shop, 1945 Winchester Blvd., Campbell.

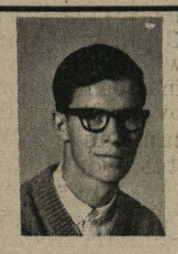
Special emphasis will be given to the inert gas process, tig and mig welding, dealing with the theory of welding the hard to weld metals.

The instructional procedures will be directed toward skill in manual dexterity in the use of specialized welding equipment, and approximately two hours of each class session will be devoted to these shop practices.

Due to the lack of available labs for teaching advanced welding in the inert gas processes, this new industrial training offering will fill an urgent need of local industry, according to Ned Stanley, school director.

Persons taking the class should be welders at the present time or have completed a beginning course in welding. Those interested can contact Campbell Adult School at 379-4710. A maximum of 20 may be enrolled each semester.

Warrior World



by RUSS LONG

Two foreign exchange students, risers in the music room, Big and Little Sister program, and a dance headline the news at Westmont this week.

Anders Framme, from Nassie, Sweden, is the American Field Service (AFS) exchange student. Anders has an interest in outdoor sports, and wants to get into engineering or a related science field. Anders' father is a teacher of Swedish history, and government back in Sweden.

Youth for Better Understanding brings Ingo Fledler to us from Hamburg, Germany. Ingo's interests include swimming, diving, gymnastics, the violin and reading American literature. He has two brothers, aged 13 and one and one half, and is staying with Alan Kolsky's family.

My apologies to Mr. Harold Sonntag, dean of boys, for misspelling his name last week. I missed the double "n". Sorry about that.

Bright red carpet covers the new risers in the music room. Mr. Gary Kenyon, band director, stated that the reason for the use of carpeting instead of paint is that carpet has a lower maintenance cost. The cost of repainting annually is higher than having carpet cleaned.

A Big-Little Sister program was held in the gym last Friday. The purpose of this program is to orient the freshmen and transfer girls to the various clubs, societies, and extra-curricular activities to be found at Westmont.

This was initiated last year by Mrs. Dorothy Shronk, former dean of girls, and is being carried on by the new dean, Mrs. Laulette Hicks.

Student body cards went on sale Monday, and the lines grew long during the lunch period as purchases were made. The cards are covered with a clear coat of plastic for more durability, are numbered and carry the student's names to prevent the use by more than one student.

The purchase of a card assures the holder a yearbook, and admission to nearly all school activities free.

This Friday night student body card holders will be admitted free, guests for one dollar, to the "Welcome Warrior" dance to be held in the cafetorium from eight to eleven p.m. The dance, sponsored by the Social Affairs Commission, will feature the "Warlocks", a Del Mar group.

Six Campbell district high schools get 75 new teachers

When school reopened for the six high schools in the Campbell Union District, 75 new teachers were on hand, according to Dist. Supt. Laurance J. Hill.

There were 40 new women teachers and 35 men. Of these, 25 had previous teaching experience, ranging from one to 16 years, and the remaining 50 teachers were new college graduates.

The district, with some 12,000 students, now has a total of 514 certified personnel, Hill said, including 445 classroom teachers and 69 full-time administrators, including personnel serving the Adult Education department.

In addition, three new district administrators and now on duty, including Mark Guerra, who served as acting director for the Santa Clara Office of Economic Opportunity, and is now district supervisor of compensatory education; Mel Estrada, dean of vocational education and Theo Norby, director of extended education.

Other changes in the district include:

Hal Sonntag, from supervisor of physical education and attendance to dean of boys, Westmont High School.

New counselor--Joe Bonfiglio, to Campbell High School; Burl Fields, from dean of boys, Westmont, to assistant principal, Leigh; Mardel Sanders, junior counselor, Leigh; Russell Jones, senior counselor, Leigh; Mrs. Lauletta Hicks, dean of girls, Westmont.

New directors of activities--Frank Filice, Camden; Fred Moore, Blackford, and Arline Dwyer, Westmont.

Hill said also that the district is now signing up persons qualified to serve.

Money stolen

James Adolph Kirchner, a custodian, 803 Ricky Dr., reported to Campbell Police that a thief apparently familar with his apartment entered his bedroom and took $30 from a dresser drawer.

Entry was apparently made through a sliding glass door leading to the back yard which was found partially open.

NAVY TRAINING

Seaman Recruit Robert J. Cirner, USN, son of Mr. and Mrs. James Cirner of 750 Ricky Court, Campbell, has graduated from nine weeks of Navy basic training at the Naval Training Center in San Diego.

College taxes down, as 6,154 enter

Student enrollment is up at the West Valley College and at the same time the college tax rate is reduced by 8.8 cents according to Dr. Wallace W. Hall, college superintendent.

As of Sept. 14 a total of 6,154 students were enrolled for the new semester including 33 out-of-state students and four foreign students.

Dr. Hall also reported that the County Board of Supervisors has set the tax rate for the college district at 56.2 cents per $100 assesses valuation, on an equalized roll of $576,448,210. This is a reduction of 8.8 cents from the 1965-66 fiscal year.

LEGAL NOTICE

NOTICE TO PAY ASSESSMENTS
MICHAEL DRIVE, ET AL. IMPROVEMENT DISTRICT LOCAL IMPROVEMENT DISTRICT NO. 11

NOTICE IS HEREBY GIVEN that all owners of real property liable to be assessed to pay the costs and expenses of the acquisitions and improvements described in Resolution of Intention No. 1704 adopted by the City Council of the City of Campbell on July 13, 1964, as subsequently amended, are hereby notified that on September 6, 1966, the assessment and diagram to pay the costs and expenses of said acquisitions and improvements was recorded in my office.

Said assessments are due and payable immediately at the office of the Finance Director, City Hall, Campbell, California, and must be paid within the period expiring October 6, 1966.

In the event of the failure to pay before the expiration of said period, serial bonds to represent the unpaid assessments and bearing interest at the rate of not to exceed six per cent (6%) per annum will be issued pursuant to the Improvement Bond Act of 1915, the last installment of which bonds shall mature not to exceed fourteen (14) years from the second day of July next succeeding ten months from their date.

William G. Wren, Superintendent of Streets of the City of Campbell
Publish: Sept. 14, 21, 28, 1966

LEGAL NOTICE

ORDINANCE NO. 564

BEING AN ORDINANCE ADOPTING PRIMARY AND SECONDARY UNIFORM BUILDING, ELECTRICAL, PLUMBING, HEATING, AND HOUSING CODES AND AMENDMENTS TO AND DELETIONS THEREFROM, AND ADOPTING REGULATIONS FOR SWIMMING POOLS AS PART OF CHAPTER I of ARTICLE VIII OF THE CAMPBELL MUNICIPAL CODE, ENTITLED BUILDING REGULATIONS

The City Council of City of Campbell does ordain as follows:

SECTION ONE: That Section 8100 of Chapter I, Article VIII of The Campbell Municipal Code be and the same is hereby amended to read as follows:

PART I

Section 8100. Adoption of Uniform Building Code.

The City Council of City of Campbell does hereby adopt a uniform building code for the regulation of construction, altering, renovating and remodeling of buildings and structures, the issuance of permits therefor and enforcement thereof which said Building Code is as follows, to-wit:

(1) All of the provisions of the Uniform Building Code of 1964 of the International Conference of Building Officials, hereinafter termed the Building Code, and each and all of the regulations, provisions, penalties, conditions and terms of such Building Code (three copies of which code have been filed for use and examination by the public in the office of the City Clerk) are hereby referred to and are hereby adopted and made a part hereof, the same as if fully set forth in this chapter, and are adopted as sections of this chapter bearing the same numerical sections, designations, titles as appear in said Building Codes.

SECTION TWO: That Section 8200 of Chapter 2, Article VIII of the Campbell Municipal Code be and the same is changed to Section 8101, Part II of the said Code, and amended to read as follows:

PART II

Section 8101. Adoption of Uniform Plumbing Code.

a. The City Council of the City of Campbell does hereby adopt a Uniform Plumbing Code for the regulation of installation of plumbing fixtures and appliances, gas fixtures and appliances and provide for the issuance of permits therefor and enforcement of the Code which said Plumbing Code is as follows, to-wit:

All of the provisions of the Western Plumbing Officials Uniform Plumbing Code of 1964 hereinafter termed the Plumbing Code and each and all of the regulations, provisions and terms of such Plumbing Code (three copies of which have been filed for use and examination of the public in the office of the City Clerk) are hereby referred to and are hereby made a part hereof, the same as if fully set forth in this chapter, and they are adopted as sections of this chapter, bearing the same numerical sections, names and titles as appear in said Uniform Plumbing Code excepting as herein changed and modified and added thereto.

b. AMENDING SECTION 1103(a)

Section 1103 (a) is hereby amended to read as follows:

Building Sewer Materials

a. The building sewer, beginning two (2) feet from any building or structure, shall be of the type known as "service weight cast iron soil pipe", and the pipe and fittings shall conform in all respects to the commercial standare CS188.59 of the United States Department of Commerce; or extra strength vitrified clay pipe, ASTM Designation: C278-60T and S-P-361B; or asbestos cement sewer pipe conforming to UPC-MS-1-58 or C428-S9T or SS-P-331a(1955); or Type "L" copper.

SECTION THREE: That Section 8200.1 of Chapter 2, Article VIII of The Campbell Muncipal Code be and the same is hereby changed to Section 8102, Part III of Chapter I of said code, and amended to read as follows:

PART III

Section 8102. Adoption of Uniform Heating and Comfort Cooling Code.

The City Council of City of Campbell does hereby adopt a Uniform Heating and Comfort Cooling Code for the regulation of and prescribing minimum standards for use and design and installation of heating and comfort cooling equipment providing for the issuance of permits therefor and administration thereof, which said code is as follows, to-wit:

(1) All of the provisions of Western Plumbing Officials Uniform Heating and Comfort Cooling Code 1964 Edition (three copies of which code have been filed for use and examination in the office of the City Clerk) is hereby referred to and is hereby adopted, the same as if fully set forth in this chapter, and it is adopted as sections of this chapter bearing the same numerical section, names and titles as appear in said Uniform Heating and Comfort Cooling Code.

SECTION FOUR: That Section 8300 of Chapter 3, Article VIII of the Campbell Municipal Code be and the same is hereby changed to Section 8103, Part IV of Chapter I of said code and amended to read as follows:

Section 8103. Adoption of Uniform Electrical Code.

The City Council of the City of Campbell does hereby adopt a Uniform Electrical Code for the regulation of electrical installations, facilities and appliances, the issuance of permits therfore, and enforcement thereof, which said Electrical Code is as follows, to-wit:

All of the provisions of the National Fire Protection Association's National Electric Code of 1965 hereinafter termed the Electrical Code, and each and all of the regulations, provisions, penalities, conditions and terms, including the modifications, exceptions and additions hereinafter set forth (three copies of which Code have been filed for use and examination by the public in the Office of the City Clerk) are hereby referred to and are hereby adopted and made a part hereof, the same as if fully set forth in this chapter, and are adopted as sections of the chapter (bearing the same numerical sections, designations and titles as appear in said National Electric Code), except insofar as the terms and provisions of said code are modified, altered, amplified and extended by the provisions of this chapter.

Section 8103.1 INTERPRETATION

a. The language used in this Part, and the National Electrical Code and the Electrical Safety Order, which are made a part of this Chapter by reference, is intended to convey the common and accepted meaning familiar to the Electrical Industry.

b. The Building Official is hereby authorized to determine the intent and meaning of any provisions of this Part.

Section 8103.2. DEFINITIONS

For the purpose of this Chapter, certain words and phrases are defined and certain provisions shall be construed as herein set forth, unless the provisions of the context otherwise require.

a. "Accepted" means acceptable to the Chief Electrical Inspector and Assistant as fulfilling the requirements of the National Electrical Code, the Electrical Safety Orders and the provisions of this Chapter.

b. "Apprentice electrician or electrician's helper", is one engaged in learning the electrical trade.

c. "Approved". The City of Campbell classifies as "approved" electrical materials, devices, fittings and appliances listed and/or labeled as conforming to the available published standards of the Underwriters' Laboratories, United States Bureau of Standards, United States Bureau of Mines, and/or similar testing laboratories having said standards available for distribution and recognized acceptable by the local inspection authority enforcing this Code.

d. "Electric" or "Electrical Wiring", is the installation or the alteration of any material, fixture, device, appliance or equipment in or on any building, structure or premises used for design or intended to be used to generate, transmit, transfer or utilize electric energy.

e. "Electrical Contractor", for the purpose of this chapter, shall be a person holding a valid electrical contractor's license (C-10) issued by the State of California.

f. "Electrical Equipment", includes all wires, conduit, raceways, wiring, lighting fixtures, cables, connections, appliances, apparatus and material of whatsoever character used for or in connection with generation, transmission or utilization of electricity for lighting, heating, power, transportation or the communication of intelligence.

g. "Electrical Safety Orders" is the electrical safety orders issued by the Division of Industrial Safety of the State of California.

h. "Electrical Work", is the installation, construction, maintenance and repairs of electrical equipment.

i. "Journeyman Electrician" shall be deemed to be any person who is employed by an Electrical Contractor to do electrical work for a wage or salary either by day, week or month, and who does not furnish any material or supplies in execution or performance of any such electrical work.

j. "Maintenance Electrician" is an electrian qualified by training and experience to do the recurring work required to keep a facility in such condition that it may be utilized at its designed capacity and efficiency, to do repair work by replacement or overhaul of constituent parts or materials to keep or restore a facitlity to condition substantially equivalent to its original or designed capacity or efficiency.

A maintenance electrician is prohibited from doing work under this Code which does not come under this heading.

k. "National Electrical Code" is the Standard of the National Board of Fire Underwriters for Electrical Wiring and Apparatus as recommended by the National Fire Protection Association and approved by the American Standards Association, 1962 Edition.

l. "Person" includes corporations, associations, partnerships, agents and individuals.

m. "Mobilehome Park" is any area or tract of land where one or more mobilehome lots are rented or held out for rent and shall include a trailer park.

Section 8103.3. PENALTIES

All penalty provisions of the Campbell City Code are applicable to violation of all the rules, provisions and regulations of this Code and to those parts, provisions and sections of the 1965 National Electrical Code adopted by reference.

Section 8103.4. PERMITS, GENERAL

No electric wiring, devices, appliances or equipment shall be installed within or on any building, structure or premises, nor shall any alterations or additions be made in any such existing wiring, devices, appliances or equipment without first securing a permit therefor from the Electrical Inspector, except as stated in the following paragraphs 1, 2, 3 and 4.

1. No permit shall be required for the replacement of lamps or the connection of portable appliances to suitable receptacles which have been permanently installed.

2. No fee shall be required by any person who is regularly employed by the Federal Government, the State, the County or the City as an electrician to perform electrical work in and upon premises owned by such agencies.

3. This ordinance shall apply to all installation of electrical conductors, fittings, devices, and fixtures, hereinafter referred to an "Electrical Equipment" within or on public and private buildings and the premises with the following general exceptions:

a. This ordinance shall not apply to installation in railway cars or to automotive vehicles.

b. This ordinance shall not apply to installations used by utility or communication agencies in the generation, transmission or distribution of electricity. This section is not to be construed as to eliminate permits and inspection on buildings, equipment and property intended to house or shelter said agencies; nothing contained in this subsection shall be construed to exempt any electrical wiring which is used for general building, lighting, general power purpose, heating ventilating, elevators, pumping equipment or for general building operation purposes, nor to exempt any service switchboard or service panelboard.

4. No permit shall be required for the installation of temporary wiring for experimental purposes in suitable experimental laboratories.

a. The foregoing exemptions from permit requirements shall not be deemed to allow any electric wiring to be done in a manner contrary to other provisions of this Code.

5. Permits shall only be issued to:

a. Owners of single family dwellings who qualify under the requirements of this Code.

b. Electrical contractors who are in complaince with the State Licensing Law.

c. Persons qualfying under the maintenance Section of this Article.

d. Governmental Agencies.

Section 8103.5. ENFORCEMENT OFFICIAL

1. It shall be the duty of the Building Official or his representative to enforce the provisions of this Code. He shall, upon application, grant permits for the installation or alteration of electrical wiring, devices, appliances and equipment, and shall make inspections of all new electrical installations and re-inspection of all electrical installations, all as provided in this Code. He shall also keep on file a list of inspected electrical appliances issued by or for Underwriters' Laboratories, Inc. (and/or other similarly recognized testing laboratories) which list shall be available for public information during regular office hours.

2. The Electrical Inspector shall have the right during reasonable hours to enter any building in the discharge of his official duties, or for the purpose of making any inspection, re-inspection or test of the installation of electric wiring, devices, appliances and equipment contained therein except that the Electrical Inspector is not empowered to enter any dwelling while the same is occupied as a dwelling without the consent of the occupant thereof. The Electrical Inspector shall have the authority to cut or disconnect any wire in cases of emergency where necessary for safety to life or property or where such wire may interfere with the work of the Fire Department. Said Electrical Inspector is hereby authorized to disconnect or order discontinuance of electrical service to any electric wiring, devices, appliances, or equipment found to be dangerous to life or property because they are defective or defectively installed until such wiring, devices, appliances and equipment and their installation have been made safe and approved by said Electrical Inspector.

3. It shall be unlawful for any owner, occupant or lessee of any premises wherein or whereon any electrical work has been done or installed and is being used or is in use, to prevent or interfere with any such Inspector in the discharge of his duties under this Article, provided, however, that said Inspector shall upon request of the owner, occupant or lessee of said premises, exhibit his identification of make such inspection.

4. The Building Official may delegate any of his powers or duties to any of his assistants.

Section 8103.6. APPLICATION

Application for permits shall be made in writing to the Electrical Inspector by the person or firm installing the work. Said application shall state the character of the work to be done, the number of outlets, the number of fixtures, the number, size and description of all pieces of electrical apparatus, the location by street, lot number and number of the building or structure where the work is to be done, and any other information which in the opinion of the Electrical Inspector is necessary to describe fully and define the work to be included in said application. No deviation may be made in the installation without the written approval of the Electrical Inspector.

Section 8103.7. SPECIAL HOME OWNER'S PERMIT

A permit for the installation of electrical or fixture work in, on or about any building used and occupied by the owner as a single family dwelling in the City of Campbell shall be issued by the Building Official or his authorized representative to the owner of said building, provided said electrical or fixture work is done by such owner or a member of his immediate family.

Section 8103.8. SUSPENSION AND REVOCATION

The Chief Electrical Inspector may suspend or revoke any permit for anyone for the following reasons:

a. Any reason which, if known, would have been cause for denial of the permit.

b. Any material misreprensentation or falsity in the application for the permit.

c. If any person or firm other than the permitee has been allowed to use the permit for any work authorized by the permit.

d. If the permitee used the permit to evade, or avoid, compliance with any other section of the Code.

Section 8103.9. EXPIRATION

The Building Official is authorized to declare any permit void for any one of the following reasons:

a. If work is not commenced within sixty (60) days of issuance of the permit.

b. Whenever the work authorized has been suspended, abandoned, or discontinued for a continuous period of one hundred twenty (120) days.

c. Whenever the permittee has failed to turn in for inspection work completed on any permit within sixty (60) days of the last work performed.

Section 8103.10. REFUNDS

a. In the event that any person shall have obtained an electrical permit and no portion of the work covered by such permit shall have been commenced, and notice of abandonment has been received from the owner of real property on which such work would have been performed, within sixty (60) days after issuance of permit, the permittee, upon presentation of his receipt to the Building Official, shall be entitled to receive a refund amount equal to eighty percent (80%) of the electrical permit fee actually paid for such permit.

b. Refunds will not be paid on duplicated permits by the same permittee holder or by others.

Section 8103.11. LATE APPLICATION

Whenever an electrical permit fee is required by this Ordinance to be paid prior to the commencing of electrical work and electrical work has been started prior to the issuance of said permit, the fee assessed when the permit is issued shall be double the amount of regular fee. Where such double fee comes to less than $10.00, the minimum assessment shall be $10.00, plus the standard permit fee. Payment of such increased fee shall in no way relieve any person required to obtain a permit from the penalties prescribed for a violation of this Code.

Section 8103.12. PERMIT FEES

Each applicant shall pay to the Department for each permit issued, and at the time of issuance, a fee in accordance with the following schedule and the rate provided for each classification shown therein:

For issuing each permit or additional permit	$ 2.00
For outlets at which current is used or controlled 1-10	2.00
For each outlet over 10	.15
For each motor of not more than 1/2 H.P.	.50
For each motor of not more than 2 H.P. but more than 1/2 H.P.	1.00
For each motor of not more than 5 H.P. but more than 2 H.P.	1.50
For each motor of not more than 15 H.P. but more than 5 H.P.	2.00
For each motor of not more than 25 H.P. but more than 15 H.P.	3.00
For each motor of not more than 50 H.P. but more than 25 H.P.	4.00
For each motor of not more than 100 H.P. but more than 50 H.P.	8.00
For each motor of more than 100 H.P.	10.00
For each motor-generator set the fee charged shall be 50% greater than for the motor alone.	
Air Cooled or oil cooled lighting and/or power transformers	
For each transformer - each KVA shall be considered as one horsepower (1 H.P.) and charged for as per motor schedule.	
For each mercury arc lamp and equipment	1.00
For each range, electric clothes dryer, or water heater installation	1.00
For each oven or burner unit	1.00
For each welding outlet	1.00
For each temporary meter set	4.00
For each moved-house (minimum)	10.00
For each lighting, power and/or control panelboard, switchboard, cabinet or panel	1.00
For each cooking or baking appliance	1.00
For each heating device, including protection equipment, each KW	.25
For working lights in buildings in course of construction or undergoing repairs or where temporary lighting is to be used:	
Temporary wiring up to 10 KVA	3.00
Temporary wiring over 10 KVA	5.00
For each festoon or decorative lighting, 100 lamps or less	2.00
For each festoon of 101 to 200 lamps	3.00
For each festoon of over 200 lamps	4.00
For each electric sign incandescent type	3.00
For electric signs, luminous gas type	3.00
Per transformer (signs)	.50
For each electric welder, per KVA	.50
For each mercury arc rectifier and syncronous converter, per KVA	1.00
For each extra inspection due to defective workmanship, or materials (or when owner or builder call for a special inspection)	2.50
For the inspection of any electrical equipment for which no fee is herein prescribed, there shall be charged a fee per hour	5.00
For each special circuit (circuits not herein listed)	2.00
For each trailer space installation	1.00
For each temporary pole	3.00
For each change of service	3.00
Fire damage inspection (minimum)	10.00

FIXTURES

Flourescent or Incandescent Lighting:	
Fixtures 1-10	2.00
For each fixture over 10	.15
For each mercury vapor lamp	1.00

Section 8103.13. INSPECTION AND CERTIFICATES

a. Upon completion of the work which has

(Continued on following page)

been authorized by issuance of any permit, it shall be the duty of the person, firm or corporation installing the same to notify the Electrical Inspector, who shall inspect the installations within forty-eight (48) hours, exclusive of Saturdays, Sundays and holidays, of the time such notice is given or as soon thereafter as is practicable. This paragraph is not to be misconstrued as permitting continuing with, or covering of, electrical wiring after forty-eight (48) hours.

b. Where the Electrical Inspector finds the installation to be in conformity with the provisions of this Code, he shall issue to the person, firm or corporation making the installation a certificate of approval authorizing the use of the installation and connection to the source of supply, and shall send notice of such authorization to the electrical utility furnishing the electric service, when other local Building Inspection requirements have been fulfilled.

c. If, upon inspection, the installation is not found to be fully in conformity with the provisions of this Code, the Electrical Inspector shall at once notify the person, firm or corporation making the installation, stating the defects which have been found to exist.

d. Failure on the part of any licensee to correct any defect, error or deficiency in any work within ten (10) days after notification thereof, or within such further reasonable time as may upon request be prescribed by the Building Official, shall be sufficient cause for refusal to issue any further permits to such licensee until such corrections have been made, inspected and approved.

e. When a certificate of approval is issued authorizing the connection and use of temporary work, such certificate shall be issued to expire at a time to be stated therein and shall be revocable by the Electrical Inspector for cause.

f. A preliminary certificate of approval may be issued authorizing the connection and use of certain specific portions of an incompleted installation; such certificate shall be revocable at the discretion of the Building Official.

g. When any part of a wiring installation is to be hidden from view by the permanent placement of parts of the building, the person, firm or corporation installing the wiring shall notify the Electrical Inspector and such parts of the wiring installation shall not be concealed until they have been inspected and approved by the Electrical Inspector; provided, that on large installations, where the concealment of parts of the wiring proceeds continuously, the person, firm or corporation installing the wiring shall give the Electrical Inspector due notice and inspections shall be made periodically when properly notified during the progress of the work. The removal of any obstruction that prevents proper inspection of any Electrical Equipment may be required by the Electrical Inspector.

Section 8103.14. CONNECTION AND INSTALLATION

a. Except where work is done under a Maintenance Electrician's permit, it shall be unlawful for any person, firm or corporation to make connection from a source of electrical energy or to supply electric service to any electric wiring, devices, appliances or equipment for the installation of which a permit is required, unless such person, firm or corporation shall have obtained satisfactory evidence that such wiring, devices, appliances or equipment are in all respects in conformity with all applicable legal provisions.

b. It shall be unlawful for any person, firm or corporation to make connections from a source of electrical energy or to supply electric service to any electric wiring, devices, appliances or equipment which has been disconnected or ordered to be disconnected by the Electrical Inspector or the use of which has been ordered by the Electrical Inspector to be discontinued until a certificate of approval has been issued by him authorizing the reconnection and use of such wiring, devices, appliances or equipment. The Electrical Inspector shall notify the serving utility of such order to discontinue use.

Section 8103.15. RESPONSIBILITY OF THE CITY

Neither the City of Campbell, nor any Department, nor any Board, officer or employee thereof, shall be held liable or responsible for any damage or injury caused by or resulting from any inspection or approval made under the provisions of this Chapter.

Section 8103.16. SEVERABILITY OF PROVISIONS

If any section, paragraph, subdivision, clause, sentence or provision of this Chapter shall be adjudged by a court of competent jurisdiction to be invalid, such invalidity shall not affect, impair, invalidate or nullify the remainder of this Chapter but the effect thereof shall be confined to the section, paragraph, subdivision, clause, sentence or provisions immediately involved in the controversy in which such judgment or decree shall be rendered.

Section 8103.17. CERTIFICATE OF COMPETENCY

It shall be unlawful for any person to labor at the work or trade of installing, connecting, constructing, maintaining or repairing electrical equipment in the City unless such person shall have secured a Certificate of Competency from the Board of Examiners of the County in his trade, after passing the examination provided for herein. All Certificates of Competency shall remain in force and effect unless cancelled or revoked. No person holding such Certificate of Competency herein above described shall lend such Certificate to any person or allow any other person to carry on, engage in, or labor at said trade on a Certificate taken out in his name. A violation of this Section shall be grounds for revocation of such person's Certificate of Competency. This Section shall not apply to persons licensed under provisions of Chapter 9, Division 3, of the State Business & Professions Code, as amended, or to apprentice electricians.

Section 8103.18. AMENDMENTS AND ADDITIONS TO NATIONAL ELECTRICAL CODE

The following sections are either enacted in modification of the National Electrical Code hereinabove adopted by reference, or are added in place of those sections, parts and/or provisions of the National Electrical Code which have not been adopted:

a. PURPOSE. A subsection (d) shall be added to Section 90-1 of the National Electrical Code, to read as follows:

(d) The purpose of this ordinance is to provide minimum standards, provisions and requirements to provide protection of Public Health and Safety in the installation, operation and maintenance of all manner of electrical work, apparatus or appliances.

b. SCOPE. A subsection (c) shall be added to Section 90-2 of the National Electrical Code, to read as follows:

(c) All electrical wiring, installations, apparatus and equipment shall be in conformity with the provisions of the 1965 National Electrical Code, except that where specific standards are prescribed by ordinances or by the statutes of the State of California, or by any orders, rules or regulations, issued by authority thereof, the provisions of such ordinances, statutes, rules and regulations shall apply.

c. QUALITY OF MATERIAL. The following subsection shall be added to Section 110-2 of the National Electrical Code:

(a) All electrical materials, devices and appliances shall be approved or tested by Underwriters' Laboratories, Inc., or other similar testing agency, and shall be of a design suitable for the purpose to be used, except that the Electrical Inspector may refuse to approve any such item for good cause.

(b) The Building Official may accept materials, devices, fittings and appliances which are not approved, listed or labeled as conforming to the standards of any testing agencies upon satisfactory evidence that they are designed and constructed so that they will operate safely under normal conditions.

(c) All materials used in the installation, alteration or repair of electrical distribution systems shall be free from defects and shall be at least of the minimum approved standards specified for all types of materials provided for in this ordinance.

(d) Previously used materials shall not be re-used unless re-approved by the Electrical Inspector, prior to installation.

(e) Dielectric and voltage tests under load shall be made by the person or firm doing the work on request of the Electrical Inspector.

d. Section 210-19(b) is deleted and the following substituted:

Phase conductors shall not be smaller than #6 for ranges of 8 - 3/4 KW or more rating, nor smaller than #14 for other loads. Cook tops and ovens shall be wired on properly protected separate circuits.

e. Section 210-21(d) is amended by adding the following:

Conductors supplying household type electric clothes dryers, shall not be smaller than #10 conductors. 230V dryers shall be figured as 4800 watts minimum.

f. Section 210-22(c) is amended by adding the following:

Receptacle outlets shall be installed on circuits that are separate from the lighting circuits. The conductors of the circuit shall not be smaller than #12 protected at 20 amperes, and the voltage between the conductors and ground shall not exceed 150 volts.

(d) In all buildings designed for dwelling occupancy, not more than 12 receptacles may be installed on any two wire circuit or on either side of a three wire circuit in bedroom, living room, bathroom, hall, den, or study.

In all other buildings or structures, and in other areas of dwellings and apartment houses, not more than 8 receptacles shall be installed on any two-wire circuit or on either side of a three-wire circuit, except as stated in amendment 220-3(b).

(e) In all buildings designed for dwelling occupancy not more than 12 light outlets shall be placed on a 20 amp. circuit.

(f) At least one receptacle outlet shall be installed in each bathroom of each building where there are sleeping facilities.

(g) A receptacle outlet shall be installed at each gas range and each refrigerator location in a convenient location not less than 36" from floor.

(h) At least one (1) receptacle outlet shall be installed in any enclosed garage. This shall be in addition to the laundry outlet if it should be in the garage. Such receptacles shall be separated by at least eight (8) linear feet.

(i) In other than residential, each first floor window area which could be used for display shall be provided with one (1) duplex receptacle above window for each ten (10) feet of lineal window space or fraction thereof.

g. Section 210-23 is amended by adding the following:

(c) In single family, two family dwellings, and apartments, garbage disposals and/or dishwashers may be installed on a 20 amp. separate branch circuit and connected in flexible metal conduit raceway or approved 3 wire cord and cap.

(d) The washing machine (laundry) receptacle shall be on a restricted circuit of not more than 3 other receptacles which cannot be in the kitchen, dining room, breakfast room, service porch, and/or garage.

(e) All other electrical appliances, having larger than 1/4 HP motors or using more than 1350 W, such as a washing machine, a built-in heater(s) and any other major fixed appliance shall be on a separate branch circuit, supplied by a minimum #12 wire.

(f) Electric Light Heat Lamp Type Outlets to be circuited as follows:

(a) One fixture not exceeding 500 watts is permissible on lighting circuits and shall be counted as one outlet.

(b) More than one (1) fixture or single fixtures exceeding 500 watts shall be installed on a separate circuit.

h. Section 215-2 is deleted and the following substituted:

Conductor Size

Feeder conductors shall have a current rating not smaller than the feeder load as determined by Section 220-4 N.E.C. and this Code. All feeder loads of 2500 watts, or less, shall be served with not smaller than two (2) #8 wire. Greater loads than 2500 watts shall be served with three (3) conductors not smaller than #8. Where an installation has been wired and arranged for 3-wire system, no 2-wire energy supply or 2-wire service shall be connected thereto without approval. Where a feeder carries the total current supplied by the service entrance conductors, such feeder for service of #6 or smaller, shall be of the same size as the service entrance conductors. Where at any time it is found that feeder conductors are, or will be, overloaded, the feeder conductors shall be increased in capacity to accomodate the actual load served.

All feeders shall be placed in totally enclosed raceways, as permitted by this code. (See 300-1-(h) of this Code.)

i. Section 220-2 is amended by adding the following:

For the purpose of computing the size of feeder conductors in dwelling occupancies and other similar occupancies, the total number of receptacles, outlets and light outlets may be divided by ten to ascertain the number of circuits to be used in the formula below (fractional multiples above five (5) outlets shall be considered as an additional circuit). Special and separate circuits, such as laundry circuits, dishwasher circuits shall be individually counted as separate circuits. (See 220-7 of this Code.) Separate 115 volt circuits, as required for garbage disposals and built-in refrigerators and freezers, need not be considered as 1000 watt circuits for the purpose of computing feeders. Each such outlet may be counted only as one outlet for purpose of computing feeder.

j. Section 220-3(a) is amended by adding the following:

Every room shall have at least one (1) switched general lighting outlet. Living rooms, bedrooms, family rooms, and dens may be excepted, provided at least one (1) wall switch receptacle is installed.

k. Section 220-3(b) is deleted and the following substituted:

For the small appliance load in kitchen, laundry, pantry, dining room, and breakfast room of dwelling occupanices, two (2) or more 20 amp. branch circuits in addition to the branch circuits for fixed appliances in said areas, shall be provided for all receptacle outlets in these rooms. Receptacle outlets supplied by at least two (2) appliance receptacle branch circuits shall be installed in the kitchen and equally divided. Said circuits may be used to supply receptacles in other areas within the dwelling, provided such circuits do not exceed six (6) receptacles per circuit.

l. Section 220-4(k) is amended by adding the following:

Electric receptacle outlets shall not be installed on space heater circuits.

m. Section 220-7 is deleted and the following substituted:

Formula

For the purpose of computing the size of feeders in dwelling occupancies, each lighting and receptacle outlet circuit shall be assumed to be fully loaded. The first 2-wire branch circuits shall be considered as requiring 1500 watts. Each additional 2-wire branch circuit shall be considered as requiring 1000 watts, and the first 3-wire branch circuit shall be considered as requiring 2500 watts, and each additional 3-wire branch circuit as requiring 2000 watts.

(The formula in 215-2 amendment of this Code shall be used in lieu of table 220-4(a) and 220-7 N.E.C. on computing loads for single family, two family dwellings, apartments. Feeders for motels, dormitories, and other similar occupancies, without cooking facilities, shall be calculated as per table 220-(a) and 220-4(a) of the N.E.C.

n. Section 230-26 is amended by adding the following:

The service attachment shall be located within eighteen (18) inches of the building corner nearest the utility company's serving pole. When unusual conditions exist, the location of the service head shall be determined by the Electrical Inspector and the serving utility.

o. Section 230-32(a) is deleted and the following substituted:

All underground main service raceways installed to single family residences shall be a minimum of 1 1/2" and shall be protected from mechanical injury by one of the following methods:

(a) Rigid metal conduit shall be installed 12" below finished grade.

(b) Approved non-metallic raceway shall be encased in 2" of concrete installed 12" below finish grade to top of concrete.

Underground service in rear yards shall be installed parallel with the property line from the utility company's pole or injunction box to the house but in no instance closer than 18" or farther than 36" from the property line. The smallest angle of bend necessary to reach the main service area at the house shall be at least 45°.

p. Section 230-40(a) and (b) are deleted and the following substituted:

All service entrance conductors shall be installed in approved raceways.

q. Section 230-41 is deleted and the following substituted:

It is required that a minimum of 100 amp. three (3) #2 wire service be provided for all single and two family residences, and apartments. (refer: 230-71) Services shall terminate a distribution panel having a minimum of eight (8) standard circuit spaces in individual and two family residences and providing two (2) standard spare spaces.

r. Section 230-44 (SE Cable Service Conductors) and

Section 230-46 (SE Cable Service Conductors) are deleted.

s. Section 230-47, 48, 49 are deleted, except as follows:

Shall not apply to service entrance conductors. May apply for special application with written permission from the Electrical Inspector.

t. Section 230-50 is deleted.

u. Section 230-51 is deleted and the following substituted:

Service Head

Delete references to service cable.

v. Section 230-53 is deleted and the following substituted:

Terminating Raceway at Service Equipment

Delete references to service cable.

The length of service conduit in the building shall be as short as is reasonably practical, and shall not exceed thirty (30) linear feet except by special permission of the Electrical Inspector.

w. Section 230-70(g) is deleted and the following substituted:

Switch and Circuit Breaker

Service entrance conductors of less than 300 volts may supply more than one (1) individual service switch, provided:

1. Not more than one (1) service switch of this group is for the same class of service for the same consumer.

2. Where the number of service switches at the same location exceeds six (6) the entire current shall be taken through one (1) main disconnecting means.

x. Section 230-71 is deleted and the following substituted:

Rating of Service Equipment

(a) A main service disconnecting means shall be installed for each individual service and shall simultaneously disconnect all ungrounded legs and have a rating of not less than 100 amps; however, for installations consisting of not more than two 2-wire branch circuits, a switch or circuit breaker of 30 amps, minimum rating may be used. (refer: 230-41) Each metered installation shall be provided with a single main disconnect. Where multiple switches or circuit breakers are used in accordance with Section 230-71 (b), the ratings of the service equipment shall not be less than the minimum specified in this section. Duplexes may be served with a minimum of of two 60 amp. main disconnects; triplexes or larger may be served with 30 amp. main disconnects.

y. Section 230-75 is deleted and the following substituted:

Multiple-Occupancy

In a multiple occupancy building, each occupant shall have access to his disconnecting means. A multiple-occupancy shall have service equipment grouped in a common accessible place, the disconnecting means consisting of not more than six (6) switches or six circuit breakers.

z. Section 230-94(f) is amended by adding the following:

The conductors of each metered subdivision shall be in a separate raceway where they leave the service enclosure.

g. Labeling of Meters

Each individual meter location and disconnecting means shall be labeled by a permanent means.

(h) All service equipment (main switch, meter, etc.) for residential occupancy shall be raintight, or suitably protected from the weather, accessible to the outside, and the service equipment shall not be less than 18" from finish grade, nor the center line of the operating handle be more than 78" above finish grade.

(i) Where more than one (1) electrical service is authorized by this ordinance on a building, a permanent metal sign must be installed at all service locations on said buildings adjacent to the main service disconnect, with the word "Danger" in 3" letters with the following permanent instructions: "More than one (1) main switch on this building at other location".

a.1. Section 300-1(a) is amended by adding the following:

Wiring Methods - General Requirements

All electrical installations in fire zones 1 and 2 shall be in approved raceway (except flexible). In all other fire zones, other than residential uses, wiring methods shall be in approved raceway (except flexible). M.I. cable accepted in all fire zones.

Flexible metal conduit may be used in dwelling type occupancies.

b.1. Section 300-1 is amended by adding the following:

(e) Where living quarters are combined with other uses, the entire building shall be installed with approved raceways.

(f) No panel, disconnect switch, meter, or similar equipment, shall be placed directly over sinks, stoves, dryers, washers, basins, water closets, or other plumbing fixtures. Nor shall any panel, disconnect switch, meter or similar equipment be placed directly over stairs, in closed closets, toilets or bathrooms.

(g) All general lighting outlets shall be wall switch controlled.

(h) In single family and two family residences and apartments, branch circuits supplying 230 volts to appliances such as heaters, water heaters, cooking or baking appliances, etc., rated more than 3000 watts shall be installed in approved raceway.

(i) An electric light outlet shall be provided at the furnace location so as to illuminate the furnace, and shall be controlled by a switch located at the passage opening.

(j) Binding screws and/or self-locking wire terminals of receptacles shall not be substituted for splicing devices or splices in conductors.

(k) Relocated and/or Remodeled Buildings

All buildings moved into, relocated, and/or remodeled within the jurisdiction of this Code shall be wired in accordance with this Code. If any portion is found to be in an unsafe or hazardous condition, that portion shall be wired in accordance with this Code.

c.1. Section 300-4 is amended by adding the following:

Protection Against Physical Damage

Non-metallic wiring shall not be installed before the roof and outer wall sheathing is put in place, unless it is suitably protected from rain and mechanical damage.

d.1. Section 300-15 is amended by adding the following:

Boxes

Nails shall not be used in lieu of screws to support boxes, gutters, etc., unless patent

(Continued on following page)

hangers are attached as part of assembly, or unless equipment is designed for nail support.

e.1. The following sections of the said Uniform Electrical Code are not adopted:

318 (Rigid Cable Supports)
320 (Open Wiring on Insulators)
328 (Bare Conductor Feeders)
331 (Aluminum Sheathed Cable)
334 (Metal Clad Cable)

f.1. 336-6(d) is amended by adding the following:

Non-Metallic sheathed cable wiring in basements, garages and accessory buildings of one and two family dwellings shall be securely fastened to the sides of joists, plates or studs. Wiring through the members shall be placed in bored holes. The wiring shall follow the supporting members and be installed in a workmanlike manner.

g.1. Section 336-8 (Cable Runs - Unfinished Basements) is not adopted.

h.1. Section 338 (Use of SE Cable) is not adopted, except as follows:

Existing 230V circuits wired under Article 338 may be extended in accordance with this Article. This Article may be used within occupied dwellings only.

i.1. Section 339-3(c) is amended by adding the following:

Direct Burial Cable

Direct burial cable shall be installed two (2') feet below grade and protected from mechanical damage by a covering 1" x 3" redwood (or equivalent), and shall have mechanical protection in the form of rigid conduit, electrical metallic tubing, or other approved raceway, extending from outlets to a minimum of twenty-four (24) inches into the trench from the finished grade and shall not be installed under buildings or concrete slabs. In rocky ground, a sand or rock-free soil base shall be provided.

j.1. Section 342 (Non-Metallic Extensions) is not adopted.

k.1. Section 348-4 is amended by adding the following:

Electrical Metallic Tubing, Wet Locations

Electrical metallic tubing shall not be used in concrete slabs or pours except under all of the following conditions:

(a) All couplings and connectors shall be specifically approved for the purpose.

(b) All tubing shall be secured at least every five (5) feet.

(c) All tubing shall be completely surrounded and covered with 2" of concrete when placed underground or in slabs.

1.1. Section 350-3 is amended by adding the following:

Maximum Size

No larger than 1" flexible metal conduit shall be used in residences, and it shall be installed as per section 336-5 of this Code. Larger sizes may be used with permission of inspecting authority. Terminal fittings shall be of the "insert" type.

m.1. Section 380-8(a) is amended by adding the following:

Switches, Accessibility and Grouping

Where two or more externally operated switches, panels, motor starters, motors, controllers, or other units of electrical equipment are installed at the same center of distribution, an auxiliary wiring gutter shall be installed for the wiring connections to said equipment. Each switch, controller, motor starter, meters or other units of electrical equipment shall not be used for wiring raceway for conductors other than those of the specific switch or starter control.

n.1. Section 422-13(b).

Wall Mounted Ovens and Cooking Units

Delete section (b).

o.1. Section 422-E is amended by adding the following:

Electric Space Heating

Only approved electric space heaters and controls shall be installed. Each application for an electric heating permit shall be accompanied by a complete heat loss calculation based on N.E.M.A., or equal, standards, at designed conditions, indicating the K factor of insulation used. The total rating (or adjusted rating) of heat devices in each room to be heated, shall equal or exceed the calculated heat loss of each room.

Where the labeled voltage is greater or less than 5% of the service voltage, an adjusted rating of the heater shall be used in determining the output.

Adjusted rating (service voltage) $\frac{2}{2}$ x Rated Wattage
(label voltage)

Demand Factors

The demand factors for electric heat units and water heaters on duty cycle, or operating intermittently by individual thermostat control may be computed by the following table.

No. of Units	% Demand
1 - 2	100
3 - 5	85
6 - 10	70
11 - 20	60
21 - 35	50
36 - 60	40
61 - 100	35
Over 100	30

Load Limitations of Circuits

No more than 5 KW space heaters may be placed on 1 circuit or thermostat. Any heating unit in a dwelling, rated at more than 1650 watts, shall be wired for not less than 230 volts, except where the voltage is 208.

General Installation Requirements

All permanently installed electric heaters shall be permanently connected.

p.1. Section 430-25 is amended by adding the following:

Motors and Controllers

Clock and kitchen or bathroom ventilators of 1/8 H.P. or less shall be installed on either a light or receptacle circuit, and shall be counted as one outlet on that circuit.

In residentail type dwellings 1/3 H.P. or smaller, furnace motors may be connected to a receptacle circuit and be counted as one outlet on that circuit.

q.1. Section 600-31(b) is amended by adding the following:

Signs

Conductors shall be of a type approved for the purpose and for the voltage of the circuit. Conductors of a sign circuit shall be #12 AWG minimum.

All commercial buildings shall have a separate sign circuit run to an accessible point on the front of each individual occupancy terminating on the exterior of the building in an approved manner.

r.1. Section 725-11 is amended by adding the following:

Remote Control, Low Energy and Signal Circuits, residential type occupancy, (excludes thermostat and doorbell circuits).

All conductor insulation shall be 150 volt type "T" or "R" minimum or approved low voltage cable. Conductors shall be #18 or larger, and shall be placed in holes bored through joists and studs or strongbacks, and they shall be fastened with eye rings or approved staples.

Switch boxes shall be placed at all switch outlets. A minimum of 4" square outlet boxes shall be used at all relay locations and relays shall be installed so that they can be removed without removing the building finish.

Transformer and Relay Locations

Transformers shall be located in accessible locations and shall not be installed in attics, except under the following conditions. If the transformer is a fixed part of an attic type furnace, the transformer may be permitted to remain in this fixed position. Door bell and other low voltage transformers may be installed immediately adjacent to these furnace locations.

All connections shall be soldered or an approved terminal or solderless connector shall be used and all joints and splices shall be taped. Relays shall be installed in the terminal box of the recessed fixture unless such fixture is approved for relay installation.

s.1. Section 680-0 is deleted and the following substituted:

Service drop conductors and any other open overhead wiring installed over swimming pools shall be installed in accordance with GO95 of the Public Utilities Commission with written approval from the property owner filed with the City.

SECTION FIVE: That Section 8104 be added to Chapter 1, Article VIII of the Campbell Municipal Code as Part IV thereof, to read as follows:

Section 8104. Uniform Housing Code.

The City Council of the City of Campbell does hereby adopt a Uniform Housing Code for the regulation of various types of housing accomodations, and providing for the administration and enforcement thereof, which said Uniform Housing Code is as follows:

All of the provisions of the International Conference of Building Officials' Uniform Housing Code of 1964, hereafter called Housing Code, and each and all of the regulations, provisions, penalites, conditions and terms thereof (three copies of which have been filed for use and examination by the public in the office of the City Clerk), are hereby referred to and are hereby adopted and made a part hereof, the same as if fully set forth in this Chapter, and are adopted as sections of this Chapter (bearing the same numerical sections, designations and titles as appear in said Uniform Housing Code).

SECTION SIX: That Section 8105 be and the same is hereby enacted as Part IV of Chapter I of Article VIII of the Campbell Municipal Code, regulating swimming pools.

VIII of the Campbell Municipal Code, regulating swimming pools.

Section 8105.1. DEFINITIONS

a. Private Swimming Pool

A swimming pool shall include all artificially constructed pools which are used in connection with and appurtenant to a single family residence and available only to the family of the householder or his private guests.

b. Semi-Public Pools

A semi-public swimming pool shall include all artificially constructed pools which are used in connection with multiple family or co-operative groups (such as apartments, hotels, motels, private clubs, subdivisions, etc.) and available only to such groups and their private guests but not available to the general public.

c. Public Pool

A public swimming pool shall include all artificially constructed pools which are available to the general public either free or by paying a fee.

d. Swimming Pool

A swimming pool shall mean an artificial pool of water including all appurtenances to its use, and used for swimming or recreation bathing. Other terms shall be construed in their normal and ordinary use and sense. Technical terms shall be construed with the meaning accorded them by the Department of Health of this and other cities and/or states concerning swimming pools.

e. Wading Pool

A wading pool shall mean either a portable or permanent water container used for recreational wading purposes which at its deepest point is not over 18 inches. Any such container deeper than 18 inches or which has a volume in excess of 150 cubic feet of water shall, for the purposes of this ordinance, be classified as a swimming pool and shall be subject to the regulations pertaining thereto.

f. Body of Water

A body of water shall mean any body of water such as a reservoir, tank, pond, etc., not previously defined herein as a wading pool.

Section 8105.2. BUILDING PERMIT REQUIRED

a. It shall be unlawful for any person, firm, association or corporation to construct, alter, remove or demolish or to commence the construction, alteration, removal or demolition of a swimming or wading pool without first obtaining a building permit from the Building Official.

b. An application for such permit shall be submitted in such form as the Building Official prescribes. Such application shall be made by a contractor holding a valid state and city license, or the owner who will do his own construction after obtaining the required owner-builder permit. Such application shall contain the full names and addresses of the applicant and/or the owner, and if the owner is a corporate body, of its responsible officers. Such application shall describe the proposed work and shall give such additional information as may be required by the Building Official for a proper understanding of the proposed work.

c. Applications for permits for public and/or semi-public pools shall be accompanied by a certificate of acceptance by the County Department of Health, plans, calculations and specifications in duplicate, and shall be in sufficient detail to show the following:

1. Plot plan.
2. Pool demensions, depths, and volume in gallons.
3. Type and size of filter system, filtration and backwash capacities.
4. Pool piping layout with all pipe sizes shown and type of material.
5. Pool pump capacity.
6. Waste disposal system.
7. Other pertinent data as may be required by the Building Official.

d. If, after examination, the Building Official finds the application to be in compliance with the law and ordinances applicable and the proposed construction or work will be safe and adequate, he shall approve such application and issue a permit for the proposed work as soon as is practicable. If his examination reveals otherwise, he shall reject such application, noting his findings in a report to be attached to the application.

e. The Building Official may revoke a permit issued under the provisions of this ordinance in the event he finds that there has been any false statement or misrepresentation as to a material fact in the application or plans on which the permit was based.

f. All work performed under a permit issued by the Building Official under this ordinance shall conform to the approved application and plans.

g. Any plans submitted, not showing all the requirements for the granting of a permit, shall not be construed as constituting a waiver of any provision of this ordinance or a sanctioning of any violation thereof.

Section 8105.3. POOLS IN VIOLATION HEREOF PROHIBITED

Whenever the Building Official finds that construction or work in connection therewith, the erection or construction or alteration, execution or repair of which is regulated, permitted, or forbidden by this ordinance, is being erected, constructed, altered or repaired in violation of the requirements of this ordinance, or in violation of a detailed statement or plans submitted and approved hereunder, or of a permit issued hereunder, he may serve a written notice upon the responsible person directing discontinuance of such illegal action and the correction of the condition which constitutes a violation of the provisions of this ordinance. In the event that within the specified time to comply, the notice has not been complied with, the Building Official shall institute an appropriate action or proceeding at law to restrain, correct or remove such violation or the execution of work thereon.

Section 8105.4. GENERAL CONSTRUCTION REQUIREMENTS

a. Electrical Wiring: Electrical wiring shall conform to the electrical provisions set forth in the Electrical Code of the City of Campbell. No electrical wires shall be extended across the pool area at any height.

b. Water Heating Equipment: Swimming pool water heating equipment shall conform to the provisions set forth in the Plumbing Code of the City of Campbell. Water shall not be allowed to enter the pool at a temperature above 100° F.

c. Gas Piping: Gas piping shall conform to the provisions set forth in the Plumbing Code of the City of Campbell.

d. Waste Water Disposal: The waste water disposal shall conform to the provisions set forth in the Plumbing Code of the City of Campbell.

e. Portable Water Supply: The water supply shall conform to the provisions set forth in the Plumbing Code of the City of Campbell.

f. Water Treating Devices: Where devices for chemically treating the water to be used in the pool are installed, they shall meet the requirements of the County Department of Health.

g. Plumbing: All piping and appurtenances shall conform to the provisions set forth in the Plumbing Code of the City of Campbell,

h. Filter and Re-circulation System: All pools shall be equipped with an efficient and dependable circulation and purification system, consisting of circulation pumps and piping arranged for optimum circulation in the pool, and a filter with the usual and necessary appurtenances as approved by the Building Official. Such system shall be operated at all times when the pool is in use. There shall be provided a complete turnover of the pool water in 24 hours of less for private pools, and 8 hours or less for semi-public or public pools.

i. Underwater lighting: Each pool shall have installed at least one (1) low voltage, underwater lighting fixture.

j. Semi-public or Public Pools: In addition to the requirements of this ordinance, all public or semi-public pools shall conform to the requirements of the California State Health Department's rules governing swimming pools.

k. Steps and Stairways: Steps and stairways for entering or leaving the pool shall be of such construction as to minimize danger. Convex, semi-circular or triangular steps shall have rounded corners.

(1) There shall be at least one stairway for exiting or entering the pool, located in the shallow end; there shall be at least one ladder for entering or exiting the pool at the deep end. Treads of ladders and/or steps shall be of non-slip construction.

l. Runways or Decks: Runways, at least thirty (30) inches wide for private pools and four (4) feet wide for public pools, shall be placed adjacent to the pool. Runways shall be sloped 1/4 inch to the foot away from the pool, and should be of a material approved by the Building Official, which shall be of non-slip texture, easily cleaned. Grading around the pool area shall be such that the surface runoff shall be diverted from the pool.

m. Scum Gutters and Skimmers: Scum gutters and skimmers shall conform to the requirements of the State Department of Health. Inlets for fresh or re-purified water shall be located to produce a reasonably uniform circulation of water throughout the entire pool without the existence of "dead" spots.

n. Springboards or Platforms: There shall be a minimum of fourteen (14) feet of clearance above each springboard or platform. The depth of the water in the area adjacent to the springboard or platform shall not be less than the safe limits below. The minimum safe depth of water shall extend horizontally from the wall under the board or platform at least fifteen (15) feet but beyond the extremity of the board or platform, this horizontal distance shall in no case be less than shown in the table below:

ELEVATION OF PLATFORM ABOVE THE WATER LEVEL	MINIMUM SAFE DEPTH OF WATER
1 Foot	5 Feet
3 Feet	6 Feet
5 Feet	7 Feet
7 Feet	8 Feet
10 Feet	9 Feet

HORIZONTAL DISTANCE FROM END OF BOARD
10 Feet
10 Feet
13 Feet
16 Feet
20 Feet 6 In.

As the elevation of the platform exceeds ten (10) feet, the horizontal distance shall increase at the rate of 1-1/2 times the height above three (3) feet plus ten (10) feet, and the safe depth shall lower at the rate of 1/3 times the height above ten (10) feet plus nine (9) feet.

o. Clearances: No private pool shall have its water line closer than five (5) feet from any property or building line, except pools may be closer to the building if satisfactory evidence is submitted to show that no damage to the building will occur, or any other hazardous or unsafe condition will be created. No semi-public or public pool shall have its water line closer than five (5) feet from any property line, or ten (10) feet from any building line. No private pool equipment pit shall be located closer than five (5) feet from any property or building line.

p. Walls and Floors: The walls and floors shall be of an approved, engineered design and constructed to be structurally sound under the conditions of the site. The pool walls and floor shall be constructed of smooth, non-absorbent materials, free from cracks, light in color, and be so constructed as to be properly drained through one or more metal grated openings. A tight, leakproof pool with easily cleaned surfaces shall be provided. The inner surface of the pool must be coved, rounded or bullnosed at all joints, corners, angles of bases, walls, floors or curbs. No sharp corners or projections will be permitted. Floor drains shall be flush with the finished surface. The materials used in wall and floor construction shall conform to the provisions of the Building Code of the City of Campbell.

Section 8105.5. INDOOR SWIMMING POOLS

In addition to the remainder of the requirements herein, indoor swimming pools shall have windows or a skylight equal to at least one-half of the surface area of the pool, provided that artificial light may be used in lieu thereof if approved by the Building Official.

Section 8105.6. PROTECTIVE BARRIERS

Every swimming pool, wading pool or other outside body of water shall be completely surrounded by a fence or wall not less than six (6) feet in height. The fence or wall shall be so constructed as not to have openings, holes or gaps larger than four (4) inches in any dimension, except for doors or gates; and if a picket fence is erected or maintained, the horizontal dimension shall not exceed four (4) inches. A dwelling or accessory building may be used as part of such enclosure.

All gates or doors opening through such enclosure shall be equipped with a self-closing and self-latching device for keeping the gate or door securely closed at all times when not in actual use; except that the door of any dwelling, which forms a part of the enclosure, need not be so equipped.

The duty of providing and maintaining such enclosure shall be upon the person, association, firm or corporation occupying the tract of land upon which the pool or body of water is located, or the owner of any tract of land which is vacant or unoccupied.

Indoor pools shall be maintained in a separate room of any building or if in a portion of a room, a protective barrier shall be used to enclose the pool utilizing whatever walls are available.

The legislative intent of this section is the protection of the inhabitants of the City of Campbell, particularly children, from the hazards to life and safety inherent in the presence of unenclosed pools or outside bodies of water.

The Building Official is authorized and empowered to modify in individual cases the requirements of this section with respect to the height, nature and location of the fence, wall, gates or latches, or with respect to the necessity therefor, upon a showing of good cause and satisfactory assurances that the degree of protection is not thereby reduced. The Building Official also may permit the use of protective devices or structures other than those specified herein, so long as the degree of protection is not thereby reduced.

Any person, association, firm or corporation now maintaining an unenclosed swimming pool, or outside body of water, in the City of Campbell, shall have "until and including the thirty-first (31st) day of January, 1967, "to" enclose said pool.

All such swimming pools or outside bodies of water not so enclosed by the thirty-first (31st) day of January, 1967, are hereby declared public nuisances.

Section 8105.7. PERMIT FEES

The fees charged for the issuance of a permit to construct and/or enclose a pool or outside body of water in the City of Campbell shall be as stated in those codes governing the applicable portions of construction. The

(Continued on following page)

ORDINANCE NO. 564
(Continued from preceding page)

valuation of the pool, outside body of water, or accessory buildings, shall be as determined by the Building Official.

Section 8105.8. INSPECTION

All portions of the construction of the pool shall be inspected by the Building Official or his representative to insure compliance with the required codes of the City of Campbell. A final inspection to allow occupancy cannot be made until the pool is completed, filled with water and the filter system is in operation and that all phases function correctly.

Section 8105.9. PENALTY FOR VIOLATION

Any person, firm, association, or corporation, who shall violate the terms and provisions of this ordinance shall be guilty of a misdemeanor and upon conviction therefor shall be punished by a fine of not more than $500.00 or by confinement in the County Jail for not more than six months or by a combination of both.

Section 8105.10.

All ordinances or parts of ordinances in conflict herewith are hereby expressly repealed.

PASSED AND ADOPTED THIS 12th day of September, 1966, by the following vote:

AYES: Councilmen: Hyde, Rogers, Rose, Smeed, Doetsch

NOES: Councilmen: None

ABSENT: Councilmen: None

APPROVED: Ralph Doetsch, Mayor

ATTEST: Dorothy Trevethan, City Clerk

Publish: Sept. 21, 1966

DON'T SELL YOURSELF SHORT..
DON'T BE A DROP OUT!
Adult EVENING CLASSES

IN CARNIVAL SPIRIT--The tranquil scene shown in the picture of the San Tomas Village Shopping Center, will be turned into a gay, carnival atmosphere, come Thursday, Sept. 22, for three gala days afterwards. Viking Carnival Shows will feature five exciting rides for children, and a tasty, confection trailer for tantalizing tidbits.

Robert Stephens, Jr joins Peace Corps; Costa Rica tour

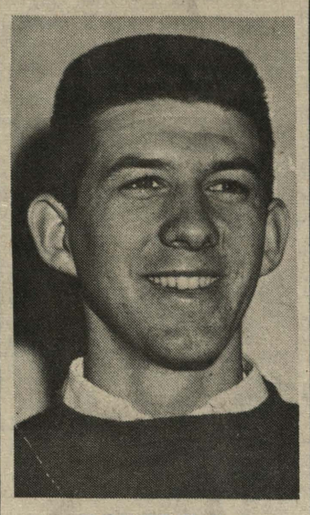
Robert Craig Stephens, 22, oldest son of Campbell's City Manager, Robert Stephens, has been accepted for training by the Peace Corps. At the conclusion of three months of basic indoctrination, he will be sent to his ultimate station, Costa Rica, Central America.

The youth, a San Jose State College graduate with a Bachelor of Arts Degree in Social Science, is now in Lubbeck, Texas, undergoing basic training. While there he will live with a Spanish speaking family. Then he will go to Puerto Rico for six weeks. Following a ten day leave at Christmas, he will be sent to Costa Rica for a two year tour of duty.

One of his major jobs during his stay will be to help establish credit unions. Costa Rica is principally an agricultural country, and bananas, coffee and cocoa are the principal export corps. Stock raising, fishing, mining, and the cultivation of rubber trees, are other major occupations.

While there, Robert will dress, eat and live like the inhabitants. He expects to learn as much from the residents of Costa Rica, as he can teach them. Illiteracy in Costa Rica is the lowest in Central America; about 80 percent of the population more than ten years of age is literate. The National University of Costa Rica has an enrollment of about 2000 students.

Robert has always been interested in foreign affairs, according to his family, and looks forward to this opportunity to travel. The youth is a graduate of Delano High School, where the family formerly resided, and he has a younger sister and brother. Mr. and Mrs. Stephens and family reside at 1156 Monica Lane.



ROBERT C. STEPHENS, JR.

Weitzel takes on annex job

Henry A. Weitzel, former Campbell mayor and active civic worker, has been named to the county's annexation body, the Local Agency Formation Commission. This is the body which studies proposed city annexations and determines the problems involved in the annexations and whether the annexation will be in the best interest of all municipal bodies concerned.

H.A. WEITZEL

Weitzel, who resides at 191 W. El Caminito has been a resident of Campbell since 1949 and has served as Campbell councilman from 1958 to 1962 and as mayor from 1962 to 1964.

Familiar with the phases of city annexations, Weitzel was named to the five man commission as a replacement for Warner Wilson who resigned recently. He has also served as a member of the Board of Directors of County Sanitation District No. 4 and as a member of the County Water Commission.

Weitzel is retired from the Los Angeles Police Department.

Moreland Little League elects

The Moreland District Little League held election of officers recently.

The new members of the 1967 Board of Directors are: Bud Christensen, president; Pat Aubry, vice-president; Joe Dalmau, player's agent; Frank Kruger, treasurer; Jim Duncan, secretary; Roger Lischner, equipment manager; Jack Lopes, publicity; Gus Millet, insurance and safety; Bob Jackson, statistician; Cam Fair, business manager; Sam Farrar, league relations officer; Jim Crawford, special projects; Wayne Shipley, major league field coordinator; Fred Burr, Curly Mullanix, honorary members.

Carnival coming to S.T. Village

The business people at San Tomas Village Shopping Center are busily planning the gala carnival show coming to their parking area, Thursday, Sept. 22, through Sunday, Sept. 25, and for the many rides that will be available to the children accompanied by their parents.

Tickets for the rides will be available at the shops in the Village Center; from Lee Colvett and Lueden Bennett's San Tomas Village Market; E.A. Saville's San Tomas Pharmacy; E.K. Brown's San Tomas Village Cafe; Mr. and Mrs. H.C. Epperson's San Tomas Village Laundry; Rodney Felche's Village West Barber Shop, and Virginia's Real Estate Office, and will entitle the riders to half-fare, or two rides for the price of one. Besides the feature of fun and frolic, there will be many savings to be found throughout the stores in the shopping center.

LARGEST MUSEUM

The Smithsonian Institution in Washington, D. C., has more than 60 million catalogued items, the world's largest museum complex.

Board needs Campbell member

"Help Wanted. Male or Female, resident of the Campbell Union High School District. Only required qualification, a firm conviction that education of this nation's citizenry is of prime importance to said nation's future. Opening available, member of the Governing Board, West Valley Joint Junior College District. Salary, zero. Job satisfaction, infinite."

Members of the West Valley College Governing Board last week reminded district residents that written applications for trustee, to fill the unexpired term of Edward A. Panelli, will be received up to 5 p.m., Sept. 28. Panelli resigned following removal of his place of residence from the Campbell district, which he represented on the Board.

Applications should be in writing and should be addressed to Dr. Wallace W. Hall, Secretary of the Governing Board, 51 E. Campbell Ave., Campbell 95008. Interviews with the Board will be scheduled later with individual applicants.

Panelli's term would have expired on June 30, 1967; accordingly, the replacement trustee would have to stand for re-election in April, 1967, should he desire to continue to serve on the board.

Reminder: All applicants must be residents of the Campbell Union High School District.

ARMY ENGINEER

Private Steven P. Dunlava, 20, whose parents, Mr. and Mrs. Carl E. Nelson, live at 180 San Tomas Rd., Campbell, recently completed an 11-week engineer equipment repair course at the Army Engineer School, Ft. Belvoir, Va.
